

INTERNATIONAL UNDERGRADUATE MEDICAL CONFERENCE

# ASCLEPIUS 8.0

*"Elixir Vitae Medicina"*

*27<sup>th</sup> to 31<sup>st</sup> January 2026*

# MESSAGE FROM THE ORGANISING COMMITTEE

It is with profound pride and sincere appreciation that we welcome you to Asclepius 8.0, a congregation that stands as a testament to our shared passion for learning, discovery, and the advancement of medical science.

The journey to Asclepius 8.0 has been one marked by dedication, collaboration, and an enduring commitment to academic and professional excellence. As the organising committee, we have endeavoured to craft an experience that transcends the boundaries of conventional learning—an experience that not only enlightens the mind but also strengthens the bonds that unite us as future leaders.

Guided by the spirit of Asclepius, the enduring emblem of healing and wisdom, we have curated a programme that brings together pioneering ideas, insightful discourse, and meaningful engagement. At a time when the landscape of healthcare evolves at an unprecedented pace, we find ourselves at a juncture defined by both challenges and opportunities. Yet it is within this very dynamic environment that the seeds of progress take root. Within these halls, you will encounter workshops that push the boundaries of the familiar, symposia that spark new inquiries, and opportunities that encourage you to explore beyond the conventional. May these experiences ignite within you the quiet yet resolute passion that guides all great healers—the drive to understand, to innovate, and to elevate.

We encourage you to approach Asclepius 8.0 not merely as participants, but as active contributors to a shared vision—a vision of a world where compassionate practice and scientific excellence converge to uplift humanity.

With gratitude for your presence and excitement for the days to come, we invite you to join us in making Asclepius 8.0 an inspiring and unforgettable milestone in our collective pursuit of progress.

With warm regards and enduring enthusiasm,

**Raghavi Jain**  
Organising Secretary

**Nidhish Agarwal**  
Organising Secretary

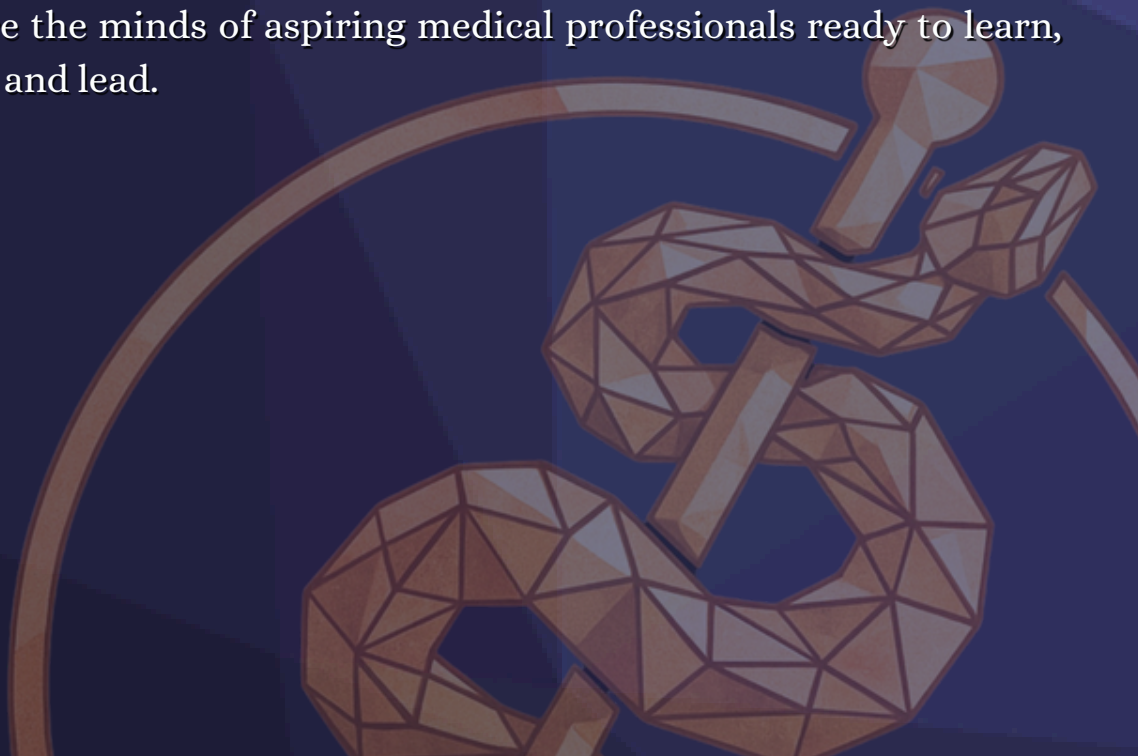

# ABOUT ASCLEPIUS

The Annual International Undergraduate Medical Conference of JSS Medical College, Mysuru comes together once again to encourage curiosity and inspire the bright minds who will shape the future of healthcare.

In a rapidly changing field like medicine, there is a constant need to improve current practices and build upon existing knowledge, especially as new challenges arise every year. To address this, Asclepius opens its doors once more to the global medical community with its eighth edition.

Following the success of previous editions that welcomed over 600 delegates, this year's conference features a wide range of events designed to keep participants engaged across five days. From one of the largest MUNs in southern India to advanced hands-on workshops, neurology symposium, stimulating quizzes, lively literary events, and interactive panel discussions with renowned keynote speakers, this edition aims to offer a memorable experience. It serves as a platform to explore new medical knowledge, exchange innovative ideas, and help participants discover their areas of interest.

By the end of the conference, we hope to reignite passion and enthusiasm among the dedicated torchbearers of medicine and inspire the minds of aspiring medical professionals ready to learn, grow, and lead.

# ABOUT MYSORE

Mysuru is a breathtakingly beautiful city, situated about 140 km from Bangalore. Rightfully called the cultural capital of Karnataka, it is the epitome of heritage and culture, being home to the finest attractions, exemplified by the famous Mysore Royal Palace, Chamundi Hills, Karanji Lake, Brindavan Gardens, St. Philomena's Church, etc. which attract millions of tourists every year. The Wodeyar dynasty has been the royal family for centuries, but now remains a symbolic representation of the Mysorean people.

Not only is Mysuru consistently ranked among the cleanest cities in India, but the modern standards also hold connections to traditional values and cultures very strongly. The people are pious, kind, and always ready to help. Mysuru is also home to many renowned institutions like Infosys, CFTRI, the University of Mysore, JSS AHER, etc. Thousands of students flock here every year to pursue their studies in some of the finest colleges in the country.

Being an educational hub, 'Namma Mysuru' is a city which welcomes you with open arms providing a lot of opportunities to discover yourself, and Team Asclepius is looking forward to being your host in this majestic city.

JSS Academy of Higher Education & Research (JSS AHER) is a Deemed University located in Mysuru, Karnataka, India. It was established in the year 2008, with a founding mission to serve the needs of the community at large and envisions emerging as a unique institution in the Higher education setting.

Under the leadership and gracious patronage and blessings of His Holiness Jagadguru Sri Shivarathri Deshikendra Mahaswamiji, the Chancellor of JSS Academy of Higher Education & Research; Honourable Pro Chancellor, Dr. B. Suresh; and Dr. H. Basavanagowdappa, JSS AHER has made great progress in grooming graduates, postgraduates and PhD researchers by providing effective, value-based education through state-of-the-art facilities.

JSS Academy of Higher Education & Research stands as a beacon of excellence in health sciences and research-driven education. Over the past decade, it has emerged as a premier institution in India, recognized nationally and internationally for its contributions across education, research, and community outreach.

At the heart of JSS AHER's success lies its robust research ecosystem, with more than 14,000 publications, H-indices of 102 in Scopus and 89 in Web of Science, and over 250 published and 50 granted patents. The University hosts ten Centers of Excellence, including the NABL-accredited Molecular Diagnostic Laboratory for Infectious Diseases equipped with state-of-the-art PCR technology.

Beyond academia, JSS AHER actively engages in community development and social impact initiatives, extending healthcare services, education support, and public health awareness through collaborations with government bodies and NGOs.

JSS Academy of Higher Education & Research stands as a testament to academic excellence, innovation, and community service, serving as a catalyst for positive change in society.

# ABOUT JSSAHER

# ABOUT JSSMC

JSS Medical College is a constituent college of JSS Academy of Higher Education & Research which is accredited with A++ Grade by NAAC and ranked 37th by NIRF for the year 2025. The institution was established in the year 1984 and has completed four decades of excellence in medical education and patient care.

The college is recognized by NMC for all its courses in UG, PG and super specialty programs. It is one of the most preferred institutes for health professionals' education in India for pursuing UG, PG and Super specialty courses in medicine and allied health sciences.

The institution is equipped with state-of-the-art infrastructure, skill and simulation centers of international standards, modern teaching-learning aids, and laboratories. Proficient teachers across disciplines impart quality medical education and involve themselves in compassionate clinical care, representing the institution in various national and international academic events.

JSS Medical College encourages students and faculty to undertake meaningful research of translational potential.

- Centre of Excellence in Molecular Biology and Regenerative Medicine (CEMR) established with support from JSS Academy of Higher Education & Research and Vision Group of Science and Technology (VGST)
- Centre for Clinical Research Excellence (CCRE) approved as a collegium of Clinical Development Services Agency (CDSA)

These centers are equipped with state-of-the-art facilities and high-end equipment to conduct quality molecular research and clinical trials.

ICMR has recognized JSS Medical College as a Collaborative Centre of Excellence (CCoE) for conducting collaborative research projects in the year 2023.

Faculty have been successful in obtaining research grants from national agencies like ICMR, DST, DBT, VGST (Government of India), TIGS, NACO, and international agencies like NIH, Swedish Heart Lung Foundation, Bill and Melinda Gates Foundation, University of Arizona, WHO, UNICEF, etc

# ABOUT JSS HOSPITAL

JSS Hospital, Mysuru, is one of India's largest and most respected healthcare institutions, known for its blend of compassion, service, and advanced medical care. Established under JSS Mahavidyapeetha, it has grown from a small health centre in 1963 into a 1,800-bedded, NABH-accredited tertiary care hospital serving patients from across Karnataka, Tamil Nadu, and neighbouring regions.

The hospital features state-of-the-art facilities including a 3-Tesla MRI, 128-slice CT scanner, cath labs, modular operation theatres, and 24×7 NABL-accredited laboratories. With 260 critical care beds and a fully equipped emergency department, it offers comprehensive treatment across major specialties such as cardiology, neurology, oncology, gastroenterology, nephrology, orthopaedics, and paediatrics.

As the teaching hospital of JSS Medical College, it provides unparalleled clinical exposure for medical students, enabling them to learn from diverse cases, high patient volumes, and advanced procedures.

Rooted in the values of humanity and ethical care, JSS Hospital continues to be a cornerstone of healthcare in the region—delivering accessible, affordable, and high-quality medical services to all.

# CURA RESPIRA

**BASIC TRAUMA AND  
AIRWAY MANAGEMENT**

**Presented in collaboration with the KEPA  
(Karnataka Emergency Physicians' Association)**

## *“Forging Airways in the Crucible of Trauma”*

Welcome to the Basic Trauma Skills and Airway Management Workshop—your entry into the fast-paced world of emergency response and disaster management. This workshop helps students understand how rapid assessment, organised teamwork, and decisive interventions make the difference when every second matters.

Through live simulations and guided mock drills, participants will immerse themselves in real-time crises. You will also explore airway management—learning to recognise, secure, and protect a patient's breath while building confidence and calm under pressure.

### **WHAT'S INSIDE?**

- **Triage** – Evaluation & Appropriate History Taking: Rapid assessment, categorising urgency, and making decisions in emergencies.
- **Trauma Scenarios:** RTAs, falls, assaults, blast injuries for practice under pressure.
- **Airway Management:** Hands-on approach to airway compromise
  - a. **Basic Airway Skills:** Airway positioning and bag-mask ventilation.
  - b. **Advanced Airway Skills:** Supraglottic devices and endotracheal intubation.
- **Mock Drill & Real-Time Explanation:** Full-scale drill with commentary.
- **Special Cases:** Managing media, politicians, and injured suspects/terrorists.

### **WHO CAN PARTICIPATE?**

Medical undergraduates from all phases interested in emergency medicine, trauma response, disaster care, and real-time triage systems.

**SEATS: 32**

**DURATION: 4 HOURS**

**VENUE: JSS SKILL AND SIMULATION LAB,  
AGRAHARA**

**Organisers:**

**Nishka Gupta- +91 8799720698**

**Rishabh Gupta- +91 9818188495**

**Jiya Shrivastava- +91 9650896386**

# SUTURE VITAE

## SUTURING SKILL WORKSHOP

*“Alchemy of restoration — turning injury into recovery”*

Welcome to our Suturing Skills Workshop — an interactive, practice-driven session that puts instruments in your hands and teaches you the alchemy of suturing, where every stitch reflects the elixir vitae. Designed for undergraduates building surgical confidence, this workshop guides you through essential wound care—from initial intervention to final closure—through live demonstrations, supervision, and hands-on practice.

Step closer to the surgeon you aspire to be as you learn instrument handling, refine suturing technique, and master secure knot-tying. In addition, you'll gain introductory exposure to the principles of endotracheal tube insertion, focusing on safe airway management concepts, recognizing landmarks, understanding indications, and observing supervised demonstrations. Each part of the session encourages active learning, teamwork, and feedback-based improvement, turning observation into skill and theory into confidence.

### WHAT'S INSIDE?

- **WET LABS on PORCINE SKIN:** Experience realistic tissue handling as you practice suturing, knotting, and procedural skills on porcine skin, bridging the gap between simulation and real surgical feel.
- **Suturing Techniques:** Practice various suturing methods, understand closure principles, and refine surgical precision.
- **Endotracheal Tube Insertion:** Learn foundational concepts of airway management, including indications, equipment familiarity, recognition of landmarks, and supervised demonstration of the insertion process.
- **Knotting Skills:** Master both single-handed and double-handed techniques with repeated guided practice to ensure accuracy and consistency.
- **Chest Tube Insertion:** Gain introductory exposure to the basics of chest tube insertion with demonstration-based learning, anatomical orientation, and safe procedural steps.

### WHO CAN PARTICIPATE?

Ideal for all medical undergraduates, including Phase 1 students fascinated by surgery and the craft of precision in wound closure.

#### Organisers:

**Valen Adrian Ferrao- +91 9035460817**

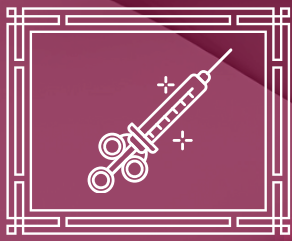

**Bhavneet Kaur- +91 9773660318**

**SEATS: 60**

**DURATION: 4 HOURS**

**VENUE: JSS HOSPITAL, AGRAHARA**

# ENKEPHALOS

## NEUROMODULATION & PSYCHIATRY WORKSHOP

*“Explore the Frontiers of Neuromodulation”*

What sets humanity apart is consciousness — the tapestry of thought, emotion, memory, and awareness that shapes who we are. Yet this essence can fracture or distort in ways that deeply affect life. Asclepius 8.0 invites you to an exclusive Psychiatry Workshop exploring the dimensions of the conscious mind and how neuromodulation techniques like Electroconvulsive Therapy (ECT) and Repetitive Transcranial Magnetic Stimulation (rTMS) offer relief where traditional treatments fall short.

From major depressive disorder and bipolar disorder to schizophrenia and OCD, these interventions have transformed mental healthcare. This workshop teaches the science behind them while breaking taboo, replacing fear with understanding, and equipping participants with clarity, compassion, and clinical insight.

### WHAT'S INSIDE?

- **Psychometric Analysis:** Evaluate psychological attributes through standardised testing.
- **ECT:** Brief, controlled electrical stimulation under anaesthesia with live demonstration and guided hands-on practice.
- **rTMS:** Focused transcranial magnetic fields stimulating brain cells with live demonstration and guided hands-on practice.
- **Clinical Applications:** How these therapies support treatment of OCD, depression, schizophrenia, and bipolar disorder.

Join us for a hands-on experience with modern psychiatric tools, insights from leading experts. Gain a holistic understanding of consciousness, expand your clinical skill set, and advance mental healthcare.

### WHO CAN PARTICIPATE?

All undergraduate students from Phase I onwards up to internship. This workshop offers a unique chance to explore modern psychiatry and strengthen your clinical skills.

### Organisers:

Prince Choudhary- 7300408972

Anchita Anand- 9810473449

**SEATS: SLOT 1- 15 SEATS, SLOT 2- 15 SEATS**

**DURATION: 3 HOURS**

**VENUE: JSS HOSPITAL, AGRAHARA**

# NEOVITALIS

## NEONATAL RESUSCITATION WORKSHOP

*“Kindling life’s first breath, bestowing the elixir vitae.”*

Welcome to our Neonatal Resuscitation Workshop, an experiential session designed to prepare medical students for one of the most critical moments in medicine — the first minutes of a newborn’s life. This workshop offers a practical approach to understanding and performing essential steps of neonatal resuscitation.

Through guided demonstrations, supervised practice, and case-based simulations, participants will learn how to assess, intervene, and respond effectively in high-stakes neonatal emergencies. From basic airway management to advanced resuscitation procedures, the participants will gain the confidence and clarity to act swiftly and correctly when it matters the most.

### WHAT’S INSIDE?:

- **TABC Assessment:** Become adept at rapidly evaluating Temperature, Airway, Breathing, and Circulation through a structured, high-acuity assessment approach.
- **Bag and Mask Ventilation:** Learn to master proper mask seal, effective ventilation technique, and the MR SOPA corrective sequence for optimising airway support.
- **Chest Compressions:** Observe live demonstrations, followed by guided hands-on practice.
- **Advanced Resuscitation Steps:** Get familiar with procedures such as ET-tube demonstration and other advanced airway techniques through supervised practice.
- **Simulation with Mock Scenarios:** Work in teams to apply your skills in lifelike resuscitation simulations designed to test coordination, timing, and teamwork.

### WHO CAN PARTICIPATE?

Welcoming all MBBS undergraduate students from **Phase 2 onwards**. Students interested in gaining practical exposure to neonatal emergency care and mastering the fundamentals of life-saving procedures. Step into the gentle alchemy that nurtures the elixir of new beginnings.

#### Organisers:

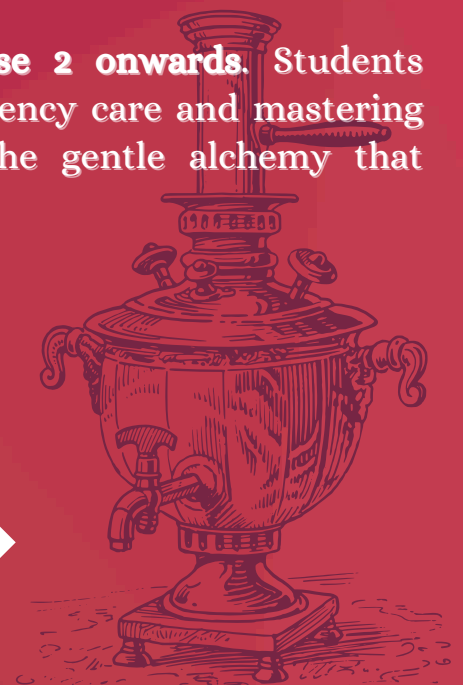

Pushya K Babu- +91 8296644944

Vanshika Singh- +91 7019374457

**SEATS: 30**

**DURATION: 4 HOURS**

**VENUE: JSS SKILL AND SIMULATION LAB,  
AGRAHARA**

# NEUROCLUSIO

USG GUIDED NERVE  
BLOCK

*“Where Ultrasound meets precision”*

Enter a domain where accuracy is second nature and insight evolves into expertise — a hands-on Ultrasound-Guided Nerve Block Workshop designed for individuals eager to excel in regional anaesthesia. Grab this chance to master the pioneering technology of the field of regional anaesthesia and elevate your pain management skills.

To further enrich this experience, the workshop also incorporates an immersive session using a state-of-the-art virtual dissection table, offering life-sized, high-resolution 3D anatomical visualisation- allowing you to explore nerve pathways, spatial relationships, and anatomical layers with exceptional clarity.

## WHAT'S INSIDE?

- This workshop will unlock access to expert instructors with years of real-world experience. This interactive workshop combines in-depth demonstrations, guided practice, and live ultrasound sessions to help you confidently perform nerve blocks with accuracy and control.
- You'll explore the essentials of nerve localisation and anaesthetic delivery, gaining practical understanding and technical confidence essential for effective pain management.

## WHO CAN PARTICIPATE?

All undergraduate students from the Phase I onwards upto internship. Don't miss this opportunity to enhance your clinical acumen!

Register now to secure your place in this transformative learning experience.

## Organisers:-

Dr. Sarika Sekar- 7358428144

# P.O.C.U.S

POINT OF CARE  
ULTRASOUND

*“See, Scan, Learn”*

Step into the world of real-time clinical imaging with our hands-on POCUS workshop, designed to transform the way you approach diagnosis and patient care. This engaging session offers live demonstrations and guided practice in performing focused ultrasound across cardiac, vascular, pulmonary, and abdominal systems. With small-group interactive learning, participants will receive personalised attention and expert supervision from seasoned professionals in the field. Whether you're managing an emergency or performing routine assessments, POCUS equips you with the confidence and skill to make faster, more accurate decisions.

### WHAT'S INSIDE? :

- **Cardiac ultrasound:** Covers parasternal, apical and subcostal windows to assess cardiac chambers and function and also help identify pericardial effusion, LV/RV size and contractility.
- **Lung ultrasound:** Hands-on training to detect pneumothorax, pleural effusion, consolidation and interstitial syndrome. Ideal for quick respiratory assessment in emergency and critical care settings.
- **Vascular ultrasound:** Training includes assessment of major upper and lower limb vessels with compression ultrasound. Participants learn to identify DVT, measure vessel diameter, and visualise flow patterns using Doppler.
- **Abdominal ultrasound:** A practical module for imaging liver, gallbladder, kidneys, spleen, bladder, and aorta. Practice gallstone detection, hydronephrosis grading and aortic aneurysm screening.

### WHO CAN PARTICIPATE?:

All undergraduate students from the **Phase 2 onwards** upto internship. Don't miss this opportunity to enhance your clinical acumen and master the art of bedside imaging!

# THE LAST DOSE

CRIME SCENE  
INVESTIGATION

## *“Searching for the invisible poison”*

The Rathore family lived in a wide, sunlit bungalow on Gulmohar Lane. Vikram Rathore—the man who built his textile empire from the ground up—was hosting the Grand Rathore Textiles Silver Jubilee Gala, meant to be a night of triumph. By the next morning, the mansion was wrapped in police tape.

Inside the study, investigators found an unfinished letter:

“Dear Dad, I need one last chance...”

And on a nearby blood-smeared sheet, two chilling words:

“I can’t.”

The body was reportedly discovered by Dr. Aarav Rathore at around 04:30 PM. He entered the study to speak with his father, alerted staff, and called the family physician. The on-call medical officer declared death and requested a full post-mortem and forensic work-up.

Every suspect has a motive. Every piece of evidence points in a different direction.

The final clue lies not in what is seen— but in what is unseen.

A death as precise as science, and as invisible as betrayal.

### WHAT’S INSIDE?

- **Narcotics Differential:** Learn how silent toxins mimic natural causes—and when poisoning hides in plain sight.
- **Methotrexate Differential:** See how a life-saving drug can turn lethal through intent, error, or manipulation.
- **Fingerprinting:** Explore simulated crime scenes, fingerprint analysis, forensic photography, bloodstain patterns, and evidence documentation.
- **Ballistics:** Follow the story told by bullets, angles, and impact—when a weapon speaks louder than witnesses.
- **Mystery Station:** Let your Curie-osity guide you.

### WHO CAN PARTICIPATE?

Open to medicos from all phases with a knack for deduction. Every fingerprint, every stain, every trace has a story to tell—only the sharpest minds can piece it together. Gear up, detectives: it’s time to think, analyse, and investigate. Happy sleuthing!

Organisers:

Harshita Singh- +91 9508242721

Sanyam Nagori- +91 9741751500

SEATS: 50

DURATION: 3.5 HOURS

VENUE: JSS MEDICAL COLLEGE, BANNIMANTAP

# RECONSTRUCTION ORTHON

ORTHOPAEDIC SKILL  
WORKSHOP

*“Orthopaedic mastery begins where theory ends — in the hands that heal.”*

Asclepius 8.0 opens its doors to the remarkable world of orthopaedics,— a field where anatomy becomes architecture, precision becomes instinct, and every decision shapes function and movement. This immersive module is designed to take you beyond theory and into the craft of clinical skill, allowing you to think, analyse, and perform like emerging orthopods.

## WHAT'S INSIDE?

- **Basic Injuries & Fractures:** Live demonstrations, mechanisms of injury, core principles of management, supervised cast/slab application, immobilisation techniques, and integrated X-ray interpretation.
- **Arthroscopy Simulation Station:** An introduction to indications, contraindications, portals, and instrumentation, followed by a guided hands-on simulation that allows participants to navigate a virtual joint environment.
- **External Fixation Station:** An overview of fixation types, their components, biomechanical principles, and clinical indications, culminating in a practical, step-by-step assembly of external fixators on delicate bone models.

## WHO CAN PARTICIPATE?

Medical students with a curiosity for orthopaedics, an eagerness to learn, and a willingness to get hands-on. No prior experience required— just enthusiasm and steady hands

## OPHTHALMIC INJECTIONS & SUTURING WORKSHOP

### *“Illuminating the Vision Within”*

Join us for a comprehensive and skill-focused Ophthalmology Workshop designed to help you understand and perform the fine techniques of ocular surgery. Led by experienced faculty, the workshop offers an in-depth walkthrough of two essential techniques — Corneal Suturing and Intravitreal Injections. Participants will first observe detailed demonstrations before practicing each technique under guided supervision.

#### WHAT'S INSIDE?:

- **Wet Lab Training:** Hands-on practice in suturing and intravitreal injections, guided by expert ophthalmologists.
- **Corneal suturing:** Learn the procedure of fine microsurgical sutures, their types, and the techniques of suturing, along with the different instruments used.
- **Intravitreal injection:** A targeted procedure where medication is delivered directly into the vitreous cavity using a controlled, sterile technique to treat retinal disorders.
- **Retinal pathology and the pharmacological basis:** Tailored for beginners, where you will be introduced to the essentials of Retinal disease pathology and medications.
- **Interactive quiz:** Test your knowledge and reinforce learning through a short, engaging quiz.

#### WHO CAN PARTICIPATE?

Open to all MBBS undergraduate students from **Phase 2 onwards** who are interested in Ophthalmology and the science of vision. Join us if you're ready to explore the alchemy behind seeing beyond the surface and hone your intricate suturing skills.

# PRE AND PARA CLINICAL QUIZ

Welcome to Occam's Razor, where the simplest answer might just win you glory... or lead you hilariously astray!  
Gear up for a high-voltage quiz battle that slices straight through anatomy, physiology, biochemistry, pathology, pharmacology, microbiology and everything in between.

## WHAT'S IN STORE?

- Mind-bending MCQs that make your neurons fire faster than a sodium channel in depolarization.
- Rapid-fire rounds where hesitation is banned and adrenaline is mandatory.
- Diagnosis dilemmas & image challenges that test whether you're future clinicians... or future comedians.
- Bonus twists inspired by the true spirit of Occam: If you can explain it simply, you just might survive it.

## WHO CAN PARTICIPATE?

- Phase I to Phase III Part II (only 2022-23 batch)
- Teams of 2- Phase III part I and part II students cannot participate with each other or their batchmates. They have to participate with a member from 2024 and 2025 batch.
- Lone wolves are welcome

## Organisers:

Shruti Shambhavi- +91 8797248243

Arwah Shah- +91 9541508547

Vibha Sunil S.- +91 7019817876

**Prize pool**  
**Rs 24,000/-**

**ONLINE PRELIMS: 09.01.2026**

**DURATION:**

**OFFLINE PRELIMS- 2 HOURS**

**OFFLINE FINALS- 4 HOURS**

**VENUE: JSS MEDICAL COLLEGE, BANNIMANTAP**

# CLINICAL QUIZ

Step into the clinical arena of Occam's Razor, where your stethoscope isn't the only thing that needs to stay sharp. This is the quiz where symptoms whisper, signs tease, and only the wisest clinicians-to-be cut through the chaos with the cleanest, simplest explanation.

The Rule of the Razor— When you hear hoofbeats, think horses... unless Occam's Razor decides to unleash the zebra.

## WHAT'S IN STORE?

- Case-based conundrums that will have you diagnosing faster than a STAT order.
- ECGs, X-rays & clinical images ready to challenge your inner Greg House.
- Emergency rapid rounds where split-second judgement is king.
- Treatment trails & differential duels that push your clinical reasoning to the edge.

## WHO CAN PARTICIPATE?

- Phase III Part 1 and Part 2 Students
- 2 members per team
- Lone wolves are welcome

Sharpen your logic, trust your instincts, and step into the most thrilling clinical battleground of the year!

# CASE PRESENTATION

*“In every diagnosis lies a story — in every story, a lesson waiting to be told.”*

Step into the heart of clinicals with our Case Presentation, where participants showcase intriguing, challenging or rare medical cases that extend beyond textbook learning.

Participants must analyze, present, and defend their cases before an expert panel, engaging in dynamic discussions that test both intellect and insight. The event aims to spark high-quality academic dialogue by focusing on interesting etiologies, evolving clinical patterns and surgical challenges.

No of participants: 1 or a team of 2

Case presentation can be under following categories -

- OBG & Paediatrics
- ENT & Ophthalmology
- Surgery
- Medicine

[Click here for detailed format](#)

[Click here to Submit](#) Deadline: 7/01/26

A winning case isn't just rare but also logically argued, clinically coherent, and academically solid. Are you ready to bring a case that truly stands out?

# POSTER PRESENTATION

Ever witnessed a breakthrough during your clinical rotations that pushed you to think beyond the textbook?

Dive into the world of medical creativity at our Poster Presentation, where ideas come alive visually. Here, students transform complex concepts into compelling stories through striking posters that blend science, art, and innovation.

Showcase rare conditions, unique presentations, novel management approaches, or the latest research that captured your curiosity. This event celebrates creative expression, sparks meaningful academic conversations, and fosters an exchange of fresh perspectives among passionate young researchers.

Let your poster do the talking : inform, inspire, and ignite curiosity.

[Click here for detailed format](#)

# ORAL PAPER PRESENTATION

"If we knew what it was we were doing, it would not be called research, would it?" - Albert Einstein

Set out to explore the frontiers of medical science and reflect your commitment to advancing clinical practice. Present fully completed research studies that offer clear results or conclusions and showcase your work on a platform where it will be evaluated by professionals in the field.

Discover new possibilities and investigate critical gaps in medicine, showcase your extensive research work on a national level platform and receive feedback from expert professionals working in similar fields.

Explore innovative ideas, formulate hypotheses and present your conclusions in an engaging manner. Your inquisitiveness and determination will prove to be valuable as you embark on future endeavors in the field of research. Witness and challenge the formation of pioneering ideas and interact with a network of like-minded and competent individuals.

# STUDENT SYMPOSIUM

Step into a space where ideas take shape, voices find clarity and young minds come together to explore the art and science of medicine. Our Student Symposium invites teams to present concise, impactful academic teaching. We provide a platform designed to encourage learning, collaboration and public speaking. Whether you're just beginning your medical journey or already navigating the clinical years, this symposium is your chance to share knowledge, spark insightful discussions, and present with creativity and purpose.

## Rulebook:

Each team must consist of (2-6) members

Team members may be MBBS Students or Interns

Each team must present a short symposium on a topic of choice from any pre & para clinical or Clinical topics.

Teams are free to use any mode of presentation— Such as PowerPoint, Working Models, Videos, Flowcharts, Mind Maps or any other creative format.

[Click here for detailed format](#)

# MEDICAL SHARK TANK

Are you ready to revolutionise the medical field with your groundbreaking ideas? Asclepius 8.0 brings an exhilarating twist to the classic Shark Tank format, offering aspiring entrepreneurs a unique platform to pitch their innovative medical solutions to a panel of influential investors.

This is more than just a competition - it's a golden opportunity to transform your visionary concepts into reality. Whether your idea is a cutting-edge medical device, a revolutionary healthcare app, or a novel treatment approach, this is your chance to make a significant impact on the future of medicine.

Demonstrate the potential benefits of your idea using data and real-world examples, and captivate the panel with your confidence and clarity. In this high-stakes environment, every second counts, so polish your pitch, perfect your delivery, and remember: in this arena, every penny counts. Make yours matter!

**Stage 1- Idea Submission-** Submit abstracts outlining your presentation before the specified deadline.

**Stage 2- Abstract Evaluation-** The sharks will assess the abstracts and the selected teams will earn a chance to pitch at the event

**Stage 3- The Pitch-** Present your idea- Each participant gets 7 minutes to pitch their concept and woo the sharks

# MEDISLEUTH

Do you have what it takes to crack the case?

Step into the fascinating and intellectually stimulating world of Forensic Medicine, where every detail matters and every clue has a story to tell. This event invites you to immerse yourself in an exciting adventure that challenges your ability to interpret facts, analyse evidence, and think with precision.

Unleash your inner Hercule Poirot as you progress through this multi-round experience designed to evaluate both your knowledge and your critical thinking abilities. Each stage of the event aims to deepen your understanding of forensic analysis while helping you appreciate the scientific elegance that underpins every investigation.

## Rules

1. Each team shall consist of 2-4 members.
2. Collaboration, communication, and combined analytical skills will be essential as you work together to unravel the mysteries presented.
3. Participants will progress through multiple rounds.
4. Each round will introduce new layers of complexity, ultimately determining whether you earn the esteemed title of winner or leave with a renewed determination for another attempt at rapid reasoning and investigative pursuit.

# SNAP DIAGNOSIS

Attention alchemists!

Enter the realm where instinct meets intellect - a space designed to test the perfect fusion of clinical quick-thinking, analytical reasoning, and creative interpretation.

Snap Diagnosis is not just a race against time, but a transformation of wit into wisdom, where the interplay of speed, logic, and intuition reveals the true diagnostic master.

Participants will journey through a series of dynamic and thoughtfully crafted rounds; in the Pictionary round, symptoms, signs, and medical clues are transformed into sketches, pushing contestants to translate clinical understanding into visual cues. The Guess the Disease segment tests memory and conceptual recall under pressure, challenging participants to integrate their theoretical knowledge into a fun game. Adding a playful twist, Music Diagnosis blends rhythm with reasoning, where musical hints serve as metaphors and triggers for medical diagnoses.

In this exhilarating one-minute showdown, your perception becomes the philosopher's stone, and every clue becomes a spark. Time may be fleeting, but the brilliance you demonstrate endures - will you decode the diagnosis before the clock strikes zero?

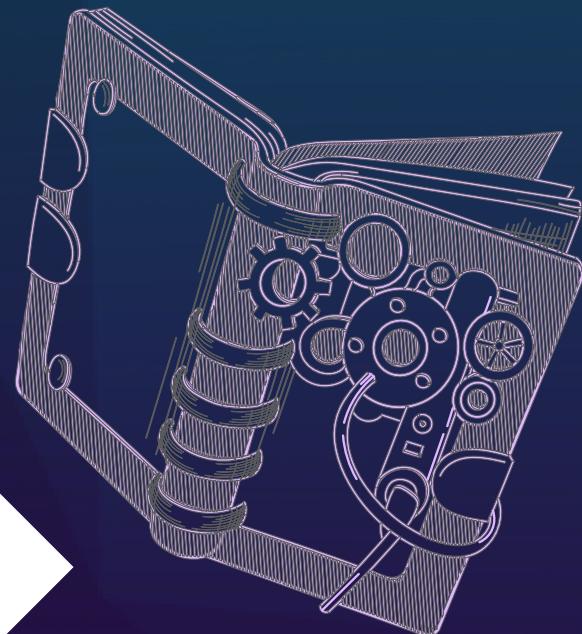

Each team consists of 3 people.

# MALARKEY

Welcome to Malarkey — a realm of medical madness where logic gets a hilarious makeover! Participants will face a series of outrageously illogical medical scenarios and must use their wit, creativity, and flair for the absurd to justify their claims. Can you convince the judges that sunburn can be treated with pure denial or that a crab makes an excellent defibrillator? Here's your chance to put your imagination to the ultimate test!

This solo event celebrates spontaneous humour and verbal dexterity as participants defend the indefensible with their own brand of "medical logic."

Get ready to think fast, speak boldly, and have a prescription-strength dose of fun!

## Rules:

1. Lone wolf participation — it's just you, your wits, and your "medical logic."
2. 120 seconds on the clock to defend your given prompt.
3. One round only — make every word count!
4. Participants will be judged on fluency, clarity, originality, language, and creativity.
5. A panel of two esteemed judges will decide whose nonsense makes the most sense. Step up, and strap in for in this arena, the most convincing absurdity reigns supreme.

# PANELS

1

POST MBBS  
PANEL

RESEARCH  
PANEL

2

## POST- MBBS PANEL

*“Your degree is the beginning. Your choices write the rest.”*

The Post-MBBS Panel guides the young doctor standing at the post-MBBS crossroads. The session breaks down major career routes in India, the UK, US, and Australia with clarity—covering timelines, exams, financial realities, and long-term growth. Each pathway is examined through an academic lens to help you understand not just where you can go, but what each path demands. The panel also addresses key decisions such as MD/MS versus DNB and highlights alternate fields where medical training drives innovation. We invite you to choose your future with intention, turning knowledge into direction and direction into destiny.

### **What You Will Learn:**

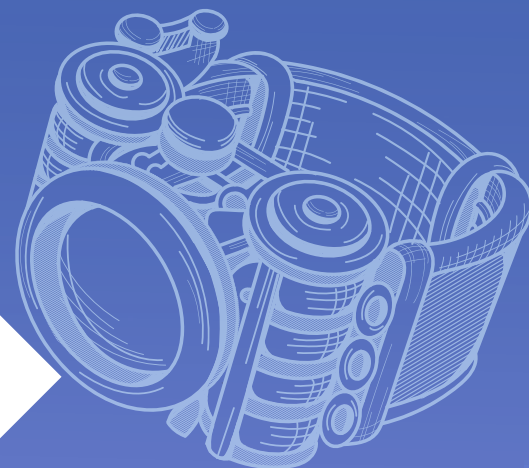

- How India, the UK, US, and Australia shape life after MBBS—and what each path truly demands.
- The timelines, exams, and real-world challenges that define the road to specialization.
- MD/MS versus DNB explained with clarity, nuance, and practical relevance.
- How to craft a medical CV that stands out with purpose, precision, and personality.
- The expanding universe of non-clinical careers where medical knowledge becomes innovation and impact.

### **Organisers:**

Vibha R. N.- +91 733824132

Gauri Soni- +91 7807962270

**VENUE: JSS MEDICAL COLLEGE,  
BANNIMANTAP**

## RESEARCH PANEL

Discover how to begin, build, and grow your journey in medical research with guidance from seasoned academicians and clinicians. This interactive session will introduce students to choosing research topics, understanding study designs, navigating ethics and approvals, and balancing research with MBBS academics. Whether you're just starting out or exploring advanced ideas, the panel helps you understand where to begin and how to move forward with clarity.

Learn the essentials of writing, presenting, and publishing your work - from abstracts and manuscripts to conferences and indexed journals. The panel will also help in building an academic profile, and simplifying the publication process. Join us to gain practical insights, ask your questions, and step confidently into the world of medical research.

### What You Will Learn:

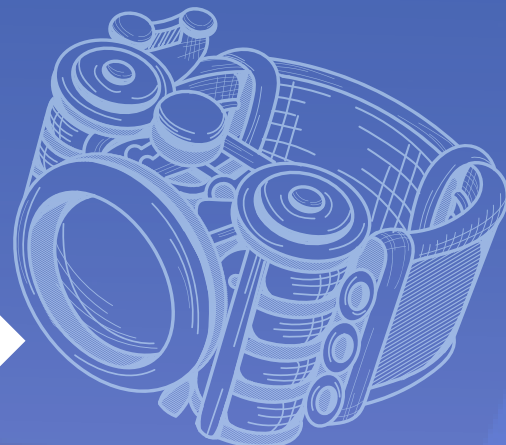

- How to turn everyday clinical cases into publishable case reports.
- Secrets to choosing research topics that actually get accepted in journals.
- How to approach a mentor and build collaborations as a student.
- Understanding plagiarism scores & how to reduce them effectively.
- Data collection methods when you don't have large patient samples.
- Making a strong research CV for residencies, both India & abroad.

# NEUROLOGY

# SYMPOSIUM

# SYMPOSIUM CEREBRI

## *“Epilepsia: From Mythos to Medicine”*

In a world where millions silently battle the unpredictability of seizures, why does stigma still overshadow science?

Through immersive experiences and interdisciplinary perspectives we deepen our understanding of one of neurology’s most challenging disorders.

### Segment 1- NeuroGenesis: Decoding the Seizure Blueprint

As we dismantle age-old taboos and dramatic misconceptions, participants gain a lucid understanding of how seizures arise, propagate, and manifest.

We Unlock the fundamentals of epilepsy under the guidance of our expert neurologists as we dive into the brain and the cascade of ionic and neurotransmitter changes.

### Segment 2- CliniqueLabyrinth: The Pathway to Precision Diagnosis

A unique, immersive walk-through of Diagnosis Zones, each recreating real-life scenarios to sharpen clinical judgement. By navigating these scenarios, participants evolve diagnostic accuracy, deepen interpretive skill, and gain the confidence essential for real-world practice.

**VENUE: JSS SKILL AND SIMULATION  
LAB, BANNIMANTAP**

# SYMPOSIUM CEREBRI

## Segment 3- Epoch Vitae: The Tender Tides of Epilepsy

Trace epilepsy through time—where the newborn brain seeks order and the maternal body protects new beginnings. Guided manikin simulations breathe realism into these stories, turning ancient complexity into modern clinical mastery.

## Segment 4- Epilepsy Praxis: From Decision to Intervention

An intensive, hands-on segment on the entire spectrum of epilepsy management. Participants move beyond theory and step into real-time clinical action through hands-on training with high-fidelity manikins, simulating diverse seizure types and their varying intensities.

We invite you to be a part of this enriching symposium designed to elevate your understanding, sharpen your skills, and enhance your expertise in epileptic care. Your participation will help shape this event into a rich and inspiring experience for all.

# **JSS MEDICAL COLLEGE MODEL UNITED NATIONS**

**29<sup>TH</sup>- 30<sup>TH</sup> JANUARY 2026**

**4<sup>th</sup> Edition**

# About MUN

Model United Nations (MUN) is a dynamic educational simulation that immerses students in the complexities of international diplomacy and global governance. In MUN, the participants, also known as delegates, assume the roles of representatives from various countries. They engage in discussions and negotiations on a range of global issues. The goal is to debate and draft resolutions that address these issues, mirroring the processes and procedures of the United Nations.

Through participation in MUN, students gain invaluable skills in diplomacy, public speaking, research, and critical thinking. The experience fosters a deeper understanding of international relations and the challenges faced by different nations. These conferences inspire students to learn and articulate their positions, build consensus, and collaborate with others to achieve common objectives. MUN not only enhances participants' knowledge of global affairs but also equips them with the tools to become informed and active global citizens. The conference encourages them to explore diverse perspectives, develop problem solving abilities, and engage in constructive dialogue, preparing them for future roles in both national and international arenas.

## JSSMCMUN

JSSMCMUN is back, once again offering a platform for engaging, productive discussions on global issues, and the creation of actionable policies aimed at the betterment of humanity. This event presents a unique opportunity for delegates from diverse backgrounds to come together, fostering the development of invaluable skills, and a deep understanding of governance and policy-making. The inaugural edition of JSSMUN in 2022 marked a historic milestone as Mysuru's first-ever Model United Nations, bringing together 150 delegates for two days of exceptional diplomacy and debate. In the following years, JSSMUN grew tremendously, attracting more delegates, fostering deeper discussions, and expanding its impact as a premier platform for youth diplomacy. Now, the Fourth Edition of JSSMUN continues this legacy, focusing on the most pressing national and international issues through collaboration, dialogue, and leadership.

# LOK SABHA

Lok Sabha (House of the People) is the lower chamber of India's bicameral Parliament, vested with the supreme legislative authority. Representing the collective voice of the citizens, the Lok Sabha plays a pivotal role in shaping national policy, enacting laws, controlling public finances, and holding the executive accountable.

With members directly elected by the people, it stands as the embodiment of India's democratic ethos- a forum where ideas converge, differences are debated, and decisions with far-reaching consequences are made, a place where diverse ideologies converge to address the evolving aspirations of the nation.

**Agenda: Assessing the Impact of Higher Professional Educational Policies Across All States with a Focus on Potential Reforms.**

The agenda calls for a comprehensive review of how existing frameworks shape India's professional education landscape. Despite expansion in medical, engineering, law, and management institutions, disparities in quality, access, and affordability persist across states. Differences in regulatory capacity, faculty availability, and infrastructural investment continue to affect student outcomes. The committee must critically evaluate how policies such as the National Education Policy (NEP), accreditation norms, reservation policies, and fee regulations translate into on-ground realities. Strengthening industry-academia collaboration, promoting research ecosystems, and reducing regional inequities remain central to meaningful reform. As India prepares for a rapidly evolving global knowledge economy, the committee seeks to explore innovative, uniform, and inclusive policy interventions. Our discussion aims to ensure that professional education becomes equitable, future-ready, and capable of producing skilled, ethical, and socially conscious professionals for the nation.

# UNITED NATIONS SECURITY COUNCIL

The United Nations Security Council (UNSC) is one of the six principal organs of the United Nations entrusted with the maintenance of international peace and security. It holds the authority to impose sanctions, authorize peacekeeping missions, and mediate in conflicts threatening global stability. The UNSC works with member states to prevent the escalation of disputes and promote diplomatic resolutions.

**Agenda: Ensuring Maritime Security and Freedom of Navigation in the South China Sea amid Rising Territorial Disputes.**

The South China Sea is a critical maritime region, serving as one of the world's busiest trade routes and a persistent hotspot for escalating geopolitical tensions. Competing claims over islands and resources have led to regional instability, challenging international maritime law, and jeopardizing freedom of navigation for all nations. The committee will critically assess recent incidents, deliberate on measures to uphold the United Nations Convention on the Law of the Sea (UNCLOS), and explore diplomatic pathways to curb the increasing pace of militarization in contested waters. Delegates are expected to go beyond condemnations and propose actionable, comprehensive frameworks focused on de-escalation, sustained dialogue, and sustainable maritime security for the benefit of the entire international community.

# UNITED NATIONS HUMAN RIGHTS COUNCIL

The United Nations Human Rights Council (UNHRC) is a principal UN body dedicated to the promotion and protection of human rights globally. It addresses pressing human rights issues, conducts reviews of member states, and fosters international cooperation to ensure fairness, transparency, and justice in all legal systems.

**Agenda: Examining the Application of the Death Penalty and Promoting Fair, Transparent, and Legally Compliant Practices in Criminal Justice Systems Worldwide.**

The application of the death penalty remains a complex and polarizing issue, raising serious concerns regarding due process, the finality of irreversible errors and compliance with the prohibition of cruel, inhuman, or degrading treatment. Furthermore, issues of disproportionate application based on race, socioeconomic status, or political affiliation undermine the integrity of justice systems globally. The committee will undertake a comprehensive examination of the judicial processes surrounding capital punishment, focusing on standards of fair trial, access to legal counsel, and judicial transparency. Delegates are called upon to review arguments for and against the use of the death penalty, and propose oversight mechanisms, promoting moratoriums, and ensuring that all criminal justice practices strictly adhere to international human rights standards and treaties.

# INTERNATIONAL PRESS

At JSSMCMUN, the International Press (IP) stands as an integral pillar of the conference, intricately woven into its very framework. More than just a team of reporters, the IP embodies the spirit of observation, interpretation, and narration, ensuring that every debate, motion, and diplomatic exchange is captured and conveyed with precision and flair.

Dedicated to reporting, publishing, and documentation, the International Press plays a crucial role in chronicling the journey of the conference. From council sessions and delegate interactions to behind-the-scenes glimpses, the IP ensures that no story goes untold.

This division provides an exceptional platform for aspiring journalists, writers, and editors to hone their craft. Through interviews, press conferences, opinion pieces, and photojournalism, members of the IP get the opportunity to bring the pulse of the conference to life. Their work culminates in a series of vibrant newsletters, blending thoughtful articles, event highlights, and compelling visuals.

Guided by the Editor-in-Chief, Executive Editor, and the Under Secretary-General of Communication and Public Information, journalists receive mentorship and constructive feedback throughout the event.

# PRIZE POOL

**29th and 30<sup>th</sup> January, 2026**  
**JSS Medical College, Mysuru**

Only MBBS Students (1<sup>st</sup> year to Interns) can register.

**The total prize pool for this year's  
JSSMCMUN is a whopping total of  
Rs.42,000/-**

## COMMITTEE BREAKDOWN

**Best Delegate: Rs. 5,000**

**High Commendation : Rs. 3,000**

**Special Mentions (x2): Rs. 1,500**

**Verbal Mentions**

**Best Reporter for International Press:  
Rs. 3,000**

# EVENTS

# GENERAL RULES

1. Work must be original.
2. Submissions with watermarks or other credentials will be disqualified.
3. Themes for the event will be announced on the Instagram page @asclepius8.0.
4. Submissions will be made via Google Forms, The link to the forms is available on respective event pages.
5. All entries must be original, and any instances of plagiarism will result in disqualification.
6. Participants must be Asclepius delegates to participate.

# POETRY

Join us at our Poetry event, where the art of healing meets the beauty of verse. This unique gathering invites students to share their creative expressions, blending the worlds of medicine and poetry. Experience the profound human stories, the trials and triumphs of healthcare, and the deep connections between caregivers and those they tend to, all brought to life through poetic expression. Whether you're a seasoned poet or a first-time writer, this event offers a welcoming platform to showcase your talent and find solace in the shared stories of the medical community.

Looking for an opportunity to add a little colour to a black and white life and channel your inner Picasso? Then dive into a realm of creativity at our Art Event designed especially for medical students. Whether you're looking to unwind, find new inspiration, or enhance your understanding of the human condition through art, this event offers a refreshing break from your studies. So, keep your brushes prepared and let your imagination run wild.

## PHOTOGRAPHY

In the fast-paced realm of medicine, where each moment tells a tale of resilience, empathy, and innovation, we often miss the artistic beauty that blends with clinical practice. As we gather for this year's medical conference, we invite you to explore a different angle-one seen through the lens of a camera. Capture the essence of your creativity, document compelling stories, and aim for photographic excellence. This contest celebrates the quirky, the bold, and the captivating. Whether you're a seasoned medical professional with a keen eye or an amateur photographer with a passion for storytelling, we welcome your distinct perspective. So, prepare your cameras and sharpen your vision for an extraordinary showcase of pixels and passion.

Para clinical and  
Clinical Quiz) and MUN  
have separate  
registrations

**03**

PICK THE EVENTS OF  
YOUR CHOICE FROM  
THE EVENTS TABLE

After receiving the  
delegate payment  
confirmation, log-in  
again to  
choose the events of  
your choice from the  
events table. You  
can choose multiple  
events at once

**05**

CONFIRMATION  
E-MAIL

You will receive and  
confirmation mail  
on your registered  
e-mail ID

Congrats, you're  
now part of  
Asclepius ! Anytime  
you want, head  
back to the website  
to see all the events  
you've bagged.

**07**

**02**

SCROLL THROUGH  
OUR EVENTS

Browse through  
the events and  
shortlist the  
events of your  
choice

**04**

CHOOSE YOUR  
DELEGATE TIER

In delegate  
registration, choose  
the delegate  
tier of your choice  
(each has it's own  
perks)

Complete the  
payment for  
Delegate  
Registration,  
you will receive a  
confirmation E-mail.

**06**

PAYMENT

## A MESSAGE FROM OUR MENTORS

**Dear Delegates,**

It is with immense pride that I welcome you to Asclepius 8.0. Having been associated with the student research cell for many years and having witnessed the remarkable journey of this conference, I am truly delighted by how far we have come. This platform has grown into a beacon for young minds, fostering innovation, inquiry, and collaboration on a global scale.

I look forward to witnessing the incredible talent and groundbreaking ideas that this year's event will showcase. Together, we are shaping the future of medical science. Asclepius has always been more than an event, it is a confluence of curiosity, dedication and collective ambition toward advancing healthcare and medical education. The diversity of topics and the caliber of delegates, speakers, and participants reflect the dynamic and evolving nature of the medical field. I encourage all of you not only to absorb knowledge but also to contribute actively to the vibrant discussions and debates that make Asclepius unique. This year's lineup of workshops, keynote sessions, and competitions promises to spark innovation and inspire meaningful collaboration.

I am honored to be part of this journey with you, and I eagerly await the many milestones and moments of brilliance that we will experience together at Asclepius 8.0.

Warm regards,

**Dr. Praveen Kulkarni**

Vice Principal – Pre & Para Clinical  
JSS Medical College, Mysuru

## A MESSAGE FROM OUR MENTORS

**Dear Delegates,**

It is my sincere pleasure to welcome you all to Asclepius 8.0, an undergraduate medical conference that continues to stand as a vibrant platform for nurturing curiosity, sharpening critical thinking and fostering meaningful collaboration among emerging leaders in the medical field. This gathering brings together the brightest minds, united by a common passion for learning and exploration.

Asclepius is far more than a routine academic event, it is an invitation to ignite new ideas, question established perspectives and engage with cutting-edge concepts shaping the future of healthcare. Each edition reinforces the transformative power of such forums in guiding the growth of young medical professionals.

Our carefully curated sessions, competitions, and workshops are designed with purpose: to inspire, to educate, and to empower. We hope to offer you not only knowledge, but also practical insights and skills that will accompany you long after the conference concludes.

I encourage each of you to embrace this unique opportunity to learn from one another, interact with experts, and immerse yourselves fully in what this platform has to offer. Let your curiosity lead the way and let collaboration strengthen your ideas. I eagerly look forward to witnessing the exceptional things you will achieve during Asclepius 8.0.

Best regards,

**Dr. Deepa Bhat**

Academic Convener
