INTERNATIONAL UNDERGRADUATE MEDICAL CONFERENCE

ASCLEPIUS

9.0

NOVUS ORDO MEDICI

It is our privilege to welcome you to this gathering – a space built on ambition, curiosity, and the quiet discipline that shapes every healer long before the white coat does.

We believe medicine deserves more than textbooks and ward rounds. It thrives on reflection, exchange, and connection. Every workshop, every discussion, and every conversation over coffee offers an opportunity to learn, question, and grow beyond the familiar.

In the days ahead, we hope you find ideas that challenge you, people who inspire you, and experiences that reaffirm why you chose this path. This gathering celebrates every late-night study session, every difficult case, and every small, uncelebrated victory that brings us closer to becoming the healers we aspire to be.

May these days foster meaningful connections, fresh perspectives, and lasting collaborations, reminding us that we are part of something larger than ourselves – a community united by purpose and a shared vision for the future of medicine.

Warm regards,

TRISHA SHARMA
ORGANIZING SECRETARY

JYOTIRADITYA NAYAK
ORGANIZING SECRETARY

MESSAGE FROM THE ORGANISING COMMITTEE

ABOUT ASCLEPIUS

Medicine never stands still, and neither does Asclepius. Each year, JSS Medical College, Mysuru, throws open its doors to students, clinicians, and thinkers from across the globe for its Annual International Undergraduate Medical Conference, and this year marks the ninth edition of the event.

Healthcare is a discipline defined by change. New research reshapes old assumptions, fresh challenges that test established systems, and the next generation of doctors must be ready to question, adapt, and innovate. Asclepius exists precisely for this reason: giving young medical minds a space to engage critically with the field they're about to inherit.

Over the past eight editions, the conference has grown into a landmark event, drawing more than 800 delegates from India and abroad. This year continues that legacy with five days packed with activity: one of South India's largest Model United Nations, immersive hands-on workshops, a dedicated Cardiac Nexus, sharp-witted quizzes, spirited literary competitions, and candid panel conversations with some of medicine's most respected voices. Together, these events transform Asclepius into more than a conference; it becomes a meeting ground for ideas, ambitions, and unexpected inspirations.

As the ninth edition draws closer, the goal remains the same as it's always been: to rekindle the spark in medicine's current custodians and light a fire in those still finding their way- the students who will one day carry this field forward.

ABOUT MYSORE

Mysore is a celebrated city in South Karnataka , fondly referred to as the “City of Palaces” and the “Heritage City.” Once the seat of the Wadiyar dynasty, the city continues to reflect its royal legacy through the magnificent Mysore Palace, the grandeur of Dasara and its many historical landmarks.

The revered Chamundeshwari Temple, beautiful Brindavan Gardens , peaceful Karanji Lake along with the pristine St. Philomena's Church add another dimension to the city's vibrant attraction and rich heritage.

The city also upholds its reputation as one of the cleanest in India , recognised for its sanitation and cleanliness, which reflects the continued efforts of its community. The people are devout, kind and warm, welcoming newcomers with open arms. Their deep-rooted appreciation for tradition and culture, which is woven into their hospitality.

Mysore has also grown into an important hub for education , healthcare and research. Home to institutions like University of Mysore, Mysore Medical College and Research Institute, JSSHER, CFTRI , the city welcomes students from across India who come here to pursue their education.

The charm of Namma Mysuru has a way of making its visitors feel at home and as Team Asclepius, we are delighted to welcome you to the same.

ABOUT JSSAHER

JSS Academy of Higher Education & Research (JSS AHER), is a deemed-to-be university located in Mysuru, Karnataka. It was established in 2008 with a vision to address the evolving needs of society through excellence in higher education, healthcare, research, and community service.

Guided by the leadership and gracious patronage of His Holiness Jagadguru Sri Shivarathri Deshikendra Mahaswamiji, Chancellor of JSS AHER, along with the Honourable Pro Chancellor, Dr. B. Suresh, and Vice chancellor Dr. H. Basavanagowdappa, the university has grown into a distinguished centre for value-based education and academic excellence. With state-of-the-art infrastructure and a multidisciplinary learning environment, JSS AHER nurtures graduates, postgraduates, and doctoral researchers, equipping them to become competent professionals and responsible contributors to society.

Over the years, JSS AHER has established a strong reputation in health sciences, research, innovation, and community engagement. Its dynamic research ecosystem has contributed to more than 14,000 publications alongside over 250 published and 50 granted patents. The university is also home to ten Centres of Excellence, including the NABL-accredited Molecular Diagnostic Laboratory for Infectious Diseases, equipped with advanced PCR-based technologies.
Complementing its academic and research achievements, JSS AHER places strong emphasis on translating knowledge into meaningful societal impact.

Through healthcare initiatives, public health programmes, educational outreach, and collaborations with government agencies and non-governmental organisations, the university contributes to the well-being and development of communities.

With a commitment to innovation, inclusivity, academic rigour, and service, JSS AHER continues to strengthen its position as a centre of excellence in higher education and research, preparing future generations to meet emerging challenges and create a positive impact both nationally and globally.

JSS ACADEMY OF HIGHER EDUCATION & RESEARCH
(DEEMED TO BE UNIVERSITY) MYSURU

ABOUT JSSMC

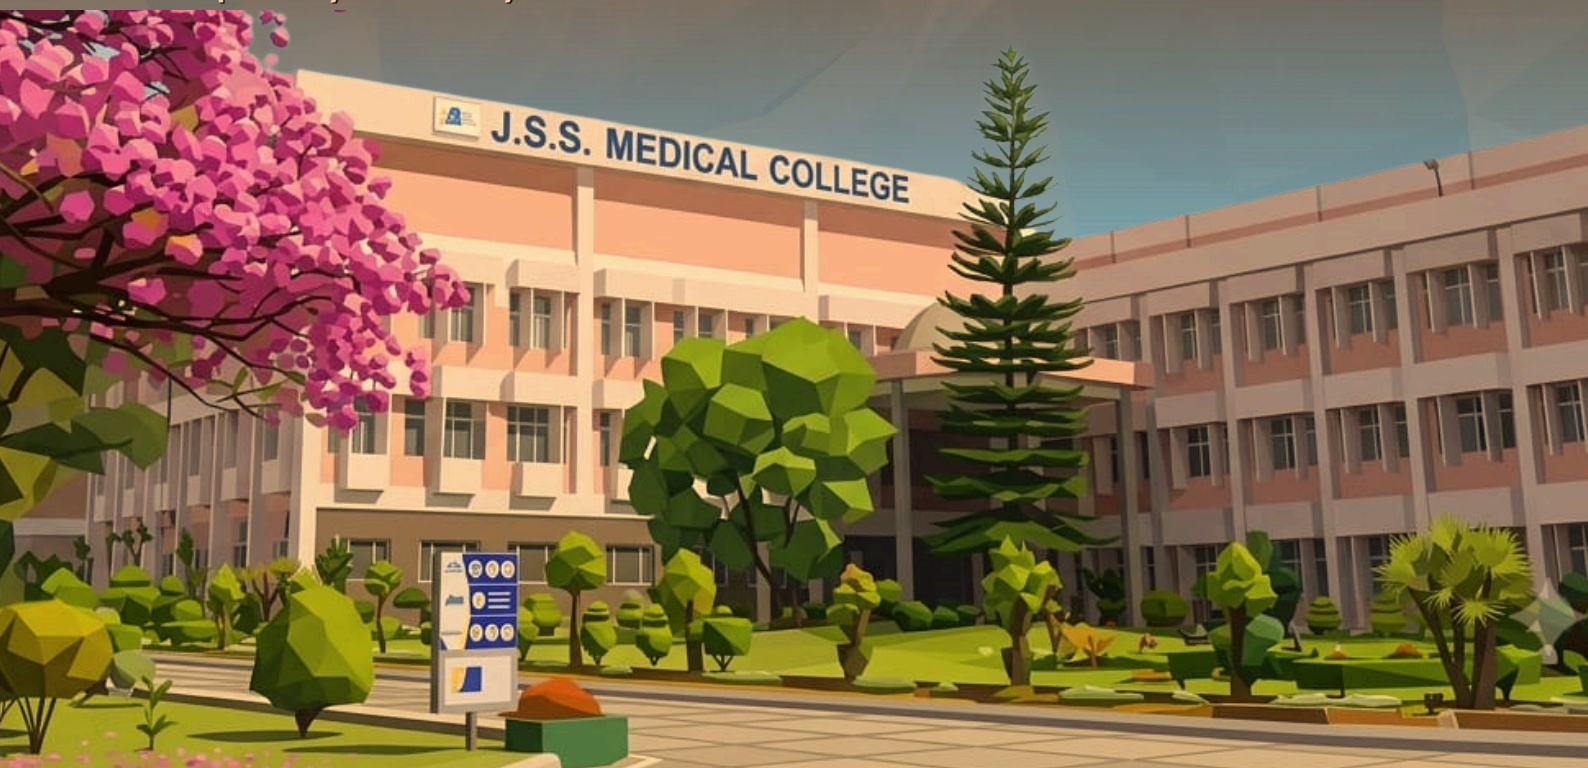

JSS Medical College is a constituent college of JSS Academy of Higher Education & Research which is accredited with A++ Grade by NAAC and ranked 38th by NIRF for the year 2026.
Since its establishment in 1984, JSS Medical College has grown into more than a place of learning. It is where the first heartbeat heard through a stethoscope becomes unforgettable, where a question can grow into research, and where medicine slowly stops feeling like a subject and begins to feel like a calling.

JSS Medical College is recognized by NMC for all its courses in undergraduate, postgraduate and super specialty programs. JSSMC encourages both students and faculty to undertake meaningful research of translational potential.

ICMR has recognized JSS Medical College as a Collaborative Centre of Excellence (CCOE) for conducting collaborative research projects in the year 2023.
Faculty have been successful in obtaining research grants from national agencies like ICMR, DST, DBT, VGST (Government of India), TIGS, NACO, and international agencies like NIH, Swedish Heart Lung Foundation, Bill and Melinda Gates Foundation, University of Arizona, WHO, UNICEF, etc

Here, every corridor carries a story, every ward offers a lesson, and every patient reminds us why we began. Somewhere between understanding disease and witnessing human resilience, students discover that medicine is not simply a profession we enter, but a responsibility we grow into.

It is in this spirit of curiosity, compassion and shared learning that we welcome you to Asclepius 9.0. For these few days, may JSS Medical College become more than our campus. May it become yours too.

ABOUT JSS HOSPITAL

JSS Hospital, Mysuru, is one of India's largest and most respected healthcare institutions, known for its blend of compassion, service, and advanced medical care. Established under JSS Mahavidyapeetha, it has grown from a small health centre in 1963 into a 1,800-bedded, NABH-accredited tertiary care hospital serving patients from across Karnataka, Tamil Nadu, and neighbouring regions.

The hospital features state-of-the-art facilities including a 3-Tesla MRI, 128-slice CT scanner, cath labs, modular operation theatres, and 24×7 NABL-accredited laboratories. With 260 critical care beds and a fully equipped emergency department, it offers comprehensive treatment across major specialties such as cardiology, neurology, oncology, gastroenterology, nephrology, orthopaedics, and paediatrics.

As the teaching hospital of JSS Medical College, it provides unparalleled clinical exposure for medical students, enabling them to learn from diverse cases, high patient volumes, and advanced procedures.

Rooted in the values of humanity and ethical care, JSS Hospital continues to be a cornerstone of healthcare in the region–delivering accessible, affordable, and high-quality medical services to all

MEDICINA EX TEMPORE

EMERGENCY MEDICINE WORKSHOP

"KNOWLEDGE IS THE WEAPON. TIME IS THE ADVERSARY."

ABOUT

An emergency rarely comes with a warning. In the face of uncertainty, the ability to assess, prioritise, and act decisively can make all the difference.

Medicina ex Tempore brings medical students into the critical world of trauma assessment and emergency management, where clinical reasoning meets the urgency of real-life decision-making. Participants will explore the principles of **recognising life-threatening injuries, navigating rapidly evolving situations, and delivering timely, effective care.**
Because in emergency medicine, knowing what to do is only half the battle – knowing when and how to do it is what counts.

What's Inside?

- **Trauma Assessment & Triage:** Developing a systematic approach to evaluating injured patients, identifying immediate threats, and prioritising care when every second counts.
- **Airway & C-Spine:** Understanding the fundamentals of airway assessment, protection of the cervical spine, and maintaining safety while managing critically injured patients.
- **Breathing & Ventilation:** Exploring the recognition of life-threatening respiratory compromise and the principles guiding timely intervention in thoracic trauma.
- **Shock & Haemorrhage Control:** Understanding the early warning signs of circulatory instability, the consequences of major blood loss, and the priorities of haemorrhage management.
- **Immobilisation & Splinting:** Exploring the principles of stabilising suspected injuries, minimising further harm, and ensuring safe handling during emergency care.

WHO CAN PARTICIPATE?

- Medical Students from **PHASE 1 onwards.**

- Seats: 24
- Duration: 3 hours 15 minutes

ORGANISERS

- **Anavadya Vinod** 8547001480
- **Urva Goyal** 9353246009
- **Vishaka Saboo** 7470648528

VENUE:
SKILL & SIMULATION LAB, AGRAHARA

ARS SUTURARUM

SUTURING WORKSHOP

"WHERE ANATOMY MEETS ARTISTRY."

ABOUT

Step into the world of surgery with Ars Suturarum – a workshop designed to transform medical knowledge into practical surgical skills.
From your **first incision to the final knot, discover the art and science of wound closure** through guided demonstrations and hands-on training. Build precision, develop confidence, and learn the techniques that turn a wound into a healing story. Whether you're taking your first step into surgery or refining your clinical skills, this is where curiosity meets craftsmanship and learning becomes experience!

What's Inside?

- **Suturing:** Get hands-on with surgical suturing on porcine skin in a wet lab. Explore essential suturing techniques, understand wound closure principles, and develop the precision every aspiring surgeon needs.
- **Knotting:** A secure knot can make all the difference. Practise single-handed and double-handed knotting techniques through guided repetition, building the dexterity, accuracy and confidence required in surgical practice.
- **Lipoma Excision:** Go beyond the basics with a guided introduction to lipoma excision. Explore the procedural steps involved, from incision to closure, and gain insight into the principles behind minor surgical procedures.

WHO CAN PARTICIPATE?

- Medical Students from **PHASE 1 onwards.**

- Seats: 60
- Duration: 3.5 - 4 hours

ORGANISERS

- **Akshara Paruchuri** 9466308836
- **Oishi Dhole** 9477058388

MENS SANA

PSYCHIATRY WORKSHOP

"UNRAVEL THE PSYCHE. ILLUMINATE THE UNSEEN"

ABOUT

Welcome to our Psychiatry Workshop, an immersive, case-based experience exploring **Major Depressive Disorder with Nicotine Dependence**. Step out of the textbook and into the clinic. This isn't just about memorising symptoms–it's about stepping into the clinician's role and following a patient's journey from the first clinical encounter to a comprehensive management plan. Through interactive patient interviews or simulated clinical scenarios, participants will explore psychiatric history-taking, mental status examination, suicide risk assessment, and diagnostic reasoning.
Explore modern neuromodulation and experience four interactive diagnostic and management stations followed by a guided mannequin demonstration.
Decode the symptoms. Unravel the diagnosis. Explore modern psychiatry!

What's Inside?

- **Clinical Stage:** Step into the clinician's role through a real patient interaction or simulated skit, exploring history-taking, mental status examination, nicotine use, and suicide risk assessment.
- **Diagnostic & Management Stations:**

1. **Psychiatric Assessment:** Unravel the case through structured clinical evaluation.
2. **Psychometric Assessment:** Explore standardised tools to assess depression and nicotine dependence.
3. **Investigations & Management:** Connect clinical findings to investigations and evidence-based treatment planning.
4. **Neuromodulation:** Discover the science behind modern brain stimulation therapies.

- **Mannequin Demonstration:** Witness an interactive demonstration of neuromodulation techniques and see the science come to life!

WHO CAN PARTICIPATE?

- Medical Students from **PHASE 1 onwards.**

- Seats: 30
- Duration: 3.5 - 4 hours

ORGANISERS

- **Vanteru Thanmai** 8310571958
- **Aarya Jha** 9871501409

VENUE:
SKILL & SIMULATION LAB, AGRAHARA

CURA PARVULORUM

PAEDIATRICS WORKSHOP

"WHERE PRECISION MEETS RESUCITATION"

ABOUT

Welcome to our Paediatrics Workshop, an enthralling **look into the emergencies that matter most in the care of newborns and children.** Paediatric emergency care is uniquely critical because infants and young children possess limited physiological reserves, meaning their clinical condition can deteriorate rapidly within moments.

Rapid, decisive intervention during these vital first minutes can profoundly alter long-term outcomes, transforming potential crisis into recovery. This workshop builds the essential skills, clinical reasoning, and confidence required to act calmly and correctly when every second counts.

What's Inside?

- **Basic Life Support (BLS):** Develop essential skills in APGAR scoring and effective chest compressions through hands-on practice.
- **Paediatric Advanced Life Support (PALS):** Build essential skills in recognising and managing critical paediatric emergencies through hands-on practice across different case scenarios:

1. **Respiratory Failure:** Recognise respiratory distress and learn the principles of airway management, bag-mask ventilation and intubation.
2. **Vascular Access:** Understand the importance of rapid vascular access in paediatric emergencies and practise establishing intravenous (IV) access.
3. **Neonatal Emergency Management:** Explore the emergency management of a critically ill, one-day-old neonate, including airway management, intraosseous (IO) access and initial resuscitation.

- **Code Blue Simulation:** Practice how to manage simulated paediatric emergencies, rapid decision-making and teamwork under pressure!

WHO CAN PARTICIPATE?

- Medical Students from **PHASE 2 onwards.**

- Seats: 30
- Duration: 3.5- 4 hours

ORGANISERS

- **Digvi Dhir** 9108901361

POINT OF CARE ULTRASOUND

"FROM SKETCH TO SCAN, FROM VISION TO VERDICT"

ABOUT

Step into the world of real-time clinical imaging with our hands-on POCUS workshop, designed to change how you approach diagnosis and patient care. Ultrasound lets you see inside the body in real time, with no radiation, no incision and no waiting.
Get familiariased with this fascinating technique and learn the basics of scanning before moving on to stations covering the heart, lungs, abdomen, and major blood vessels.
Whether you're new to ultrasound or looking to build on what you already know, this is your chance to **learn by doing and see clinical medicine from a different perspective!**

What's Inside?

- **Basics:** What POCUS is, its indications and applications, the basics of ultrasound physics, probe handling, image optimisation and common artifacts.
- **Hands-On Basics:** Learn how to set up the machine, handle the probe, identify long and short-axis views, and recognise normal anatomy.
- **Cardiac:** Scanning the heart and assessing its chambers and function.
- **Lung:** Rapid respiratory assessment with lung ultrasound, basics of assessing pneumothorax, pleural effusion, consolidation and other respiratory findings!
- **Abdomen:** Look beyond the surface! Practise scanning the liver, gallbladder, kidneys, spleen and more!
- **Vascular:** Explore the major vessels of the limbs and learn the basics of identifying DVT and assessing blood flow with Doppler.
- **Case-Based Practice:** Real-life scenarios in which you scan, interpret findings and discuss management.

WHO CAN PARTICIPATE?

- Medical Students from **PHASE 2 onwards.**

- Seats: 24
- Duration: 3.5- 4 hours

ORGANISERS

LOCUS DELICTI

CRIME SCENE INVESTIGATION WORKSHOP

"THE SCENE REMEMBERS WHAT THE CRIMINAL FORGETS."

ABOUT

A locked bedroom. A dead girl. A missing suspect.

Ananya Mehra is found dead in her own home, and Ravi, the household help, has vanished without a trace. His unanswered phone and the evidence left behind seem to tell a straightforward story–but what if the truth is far more complicated?

A drinking glass. A bloodstained object. Strands of hair and fibres. Every clue points somewhere, but not every clue points to the truth.

Someone knows more than they are letting on. Someone has something to hide. And **somewhere between the evidence and the assumptions lies the answer.**

Can you uncover what really happened before the wrong person pays the price?

What's Inside?

- **Cheiloscopy:** A lip print has been left behind. Can it help identify who was there?
- **DNA Fingerprinting:** The evidence has a match–but does a match mean guilt?
- **Trace Evidence:** Hair, blood and hidden traces tell a story. Can you piece together what really happened?
- **Forensic Psychology:** Fear can cloud judgement, and manipulation can turn suspicion into certainty. Who is controlling the narrative?
- **Final Reconstruction:** Four stations. Conflicting clues. One truth. Connect the evidence and expose the story that doesn't add up.

Just when you think the case is closed, one timestamped message changes the picture. Will you recognise what everyone else missed?

WHO CAN PARTICIPATE?

- Medical Students from **PHASE 1 onwards.**

- Seats: 40
- Duration: 3.5- 4 hours

ART PARTUS

OBSTETRICS WORKSHOP

"WHERE THE MIRACLE OF LIFE MEETS THE MASTER OF MEDICINE."

ABOUT

In the fast-paced world of Obstetrics, split-second decisions and unwavering hands define outcomes. Our Obstetrics skills Workshop is an intensive, immersive experience created to take your clinical and surgical capabilities to the next level. You will dive deep into three of the most critical situations in obstetric care- ***Postpartum Hemorrhage, Eclampsia and Vaginal Delivery***.
Elevate your practice, ignite your passion for learning, and return to your patients with empowered hands and elevated expertise, delivering better outcomes for mothers and newborns!

What's Inside?

- **Postpartum Haemorrhage (PPH):** Gain a practical approach to recognizing, assessing, and managing acute obstetric bleeding through structured, high acuity protocols.
- **Eclampsia:** Learn to navigate high stakes eclamptic emergencies with timely interventions and coordinated patient stabilization.
- **Vaginal Delivery:** Build confidence through guided practice in conducting and managing safe vaginal deliveries.

Put your learning to the test with real world clinical scenarios designed to evaluate diagnostic reasoning, rapid decision making, and critical management skills under pressure!

WHO CAN PARTICIPATE?

- Medical Students from **PHASE 2 onwards.**

- Seats: 32
- Duration: 3.5 - 4 hours

ORGANISERS

- **Devangshi K** 6202681575

AURIS, NASUS, FAUCES

ENT SKILLS WORKSHOP

"THROUGH LABYRINTHS OF ANATOMY, INTO THE SECRETS OF SOUND"

ABOUT

Welcome to our ENT Skills Workshop, a session that introduces you to the core examination skills and emergency procedures of **otorhinolaryngology**. From the delicate mechanics of hearing to the high-stakes precision of airway management and head and neck surgery, ENT is where **micro-precision meets life-changing impact**. Every millimeter counts, and every procedure restores fundamental human connections–hearing, breathing, speaking, and balance.
Join us to get hands-on experience with practical clinical skills, mastering foundational techniques, and learning directly from experts who navigate these challenges every day!

What's Inside?

- **Ear (Otoscopy):** Learn the correct way to hold the otoscope and examine the ear. Learn to identify major landmarks and get familiarized with common findings.
- **Nose (Nasal Endoscopy):** Get acquainted with the rigid nasal endoscope, including handling, set-up and safe insertion technique. You will follow a systematic examination of the nasal cavity and learn to recognise polyps, deviated septum and discharge.
- **Throat (Laryngoscopy):** Learn the technique of laryngoscopy to visualise the larynx. You will identify the epiglottis, vallecula, vocal cords and surrounding structures, and understand how the same skill carries over to airway assessment.
- **Foreign Body Removal on a Mannequin:** Practise removing foreign bodies from the ear, nose and throat on an mannequin, Expect to learn which instruments to use, what to avoid, and when to refer.
- **ENT Emergency Case Scenario:** A simulated emergency case followed by group discussion of assessment, immediate management and decision-making.

WHO CAN PARTICIPATE?

- Medical Students from **PHASE 2 onwards.**

- Seats: 28
- Duration: 3.5- 4 hours

FORMA ET FIGURA

PLASTIC SURGERY WORKSHOP

"AN ODE TO FORM, SYMMETRY, AND SURGICAL MASTERY"

ABOUT

Skin grafting is one of the foundational pillars of plastic surgery. When a burn, an injury or an excision takes skin away, a graft is how surgeons give it back, along with form and function. A graft is cut free from its blood supply, placed on a new bed, and within days it is growing new connections and coming back to life. Whether it takes depends on your hands: the thickness of the harvest, the preparation of the bed, a firm dressing that holds everything still.

Here, you'll perform the entire procedure, start to finish, on a cadaver, in a small group, guided by faculty. By the end, you'll be able to understand and demonstrate the **basic sequence of split-thickness skin grafting** with confidence.

What's Inside?

- **Fundamentals:** Dive into the world of skin grafting by understanding the fundamentals- the principles, types, indications, contraindications, steps and complications of skin grafting.
- **Recipient Site Preparation:** Preparing the wound bed to receive the graft.
- **Donor Site Selection and Marking:** Choosing and marking a suitable donor area.
- **Graft Harvesting and Preparation**: Harvesting the graft and readying it for use.
- **Meshing:** Understanding how meshing allows a graft to cover a larger surface area.
- **Graft Application and Dressing:** Placing the graft and securing it with an appropriate dressing.

WHO CAN PARTICIPATE?

- Medical Students from **PHASE 2 onwards.**

- Seats: 32
- Duration: 3.5 - 4 hours

ORGANISERS

3 POSTER PRESENTATION

4 MEDICAL SHARK TANK

5 STUDENT SYMPOSIUM

CASE PRESENTATION

"A diagnosis begins with a clue, but unfolds through the story."

ABOUT

Step beyond the textbook with our **Case Presentation**, where intriguing, challenging, and uncommon clinical cases take centre stage. Participants will have the opportunity to present cases that offer unique diagnostic, therapeutic, or clinical insights before an expert panel.

From unusual aetiologies and evolving clinical presentations to diagnostic dilemmas and surgical challenges, each case is an opportunity to demonstrate clinical reasoning, engage in high-quality academic dialogue, and learn beyond the textbook.
Participants will be shortlisted based on their submitted abstracts, and only pre-approved cases will be eligible for presentation.

ELIGIBILITY CRITERIA

- Team of 1 or 2 people per presentation.
  ONLY MEDICAL UG STUDENTS ARE PERMITTED.
- Only one entry from each team is permitted.
  Only one participant per team will submit the abstract.
- Only 1 intern per team is allowed to participate.

TIME LIMIT: Each speaker will be given 7 minutes to speak followed by an interjection round by the judges for 3 minutes.

ABSTRACT FORMAT:

a. PDF format only
b. English only
c. Word limit - 400 words (all inclusive)
d. Font - Arial
e. Title size - 16,
f. Normal text - size - 13
g. Line spacing - 1.5
h. Sample Case Abstract

PRESENTATION CAN BE UNDER FOLLOWING CATEGORIES:

1. OBG & Paediatrics
2. ENT & Ophthalmology
3. Surgery
4. Medicine

ABSTRACT DETAILS

The said abstract must include the following:

- A title and brief description of the case including the descriptive history and pictures.
- Reason for interest in the case in regards to the medical fraternity.
- A short description of the management of the case. Investigations of the case.
- The abstract will be selected by a team of eminent judges and the selected abstracts will be called for presentation at the conference.

CASE PRESENTATION

ABSTRACT STRUCTURE

1. Title
2. History
3. Examination
4. Differential Diagnosis
5. Investigation
6. Final Diagnosis
7. Management

- **NOTE – Permission letter from the head of the department to be taken if the case/information is taken from hospital or any institution other than one's own**
- All participants are required to submit an abstract of their presentation beforehand, the form for which is attached below. This allows for shortlisting the participants.

Click Here to Submit

- There is no fee for abstract submission. Fee applicable after abstract has been selected.
- Judges' decisions will be considered final.
- Personal details must **NOT** be provided inside the abstract document. Doing so will lead to abstract disqualification. Personal details shall only be provided in the Google Form.
- The last date for abstract submission is **25th October 2026.**
- Submissions will be taken via this Google Form
- Selected abstracts will be announced on the official Asclepius Instagram page (asclepius9.0) as well as via personal email.

ORAL PAPER PRESENTATION

"Somewhere, something incredible is waiting to be known." -Carl Sagan

ABOUT

Every meaningful discovery begins with a question. **Oral Paper Presentation** is a platform to turn that question into evidence, insight, and conversation.
An opportunity to present your *completed research* on a national platform, defend your approach, receive feedback from expert professionals working in similar fields and engage in thought-provoking academic discussion.

Whether you're dissecting a case that stumped you or presenting research that excites you, this is your moment to think on your feet, engage a room, and prove that the best ideas are the ones spoken with purpose.

ELIGIBILITY CRITERIA

- Only **medical undergraduate students** are eligible to present.
- Participation is **individual or as a team of 2.** The participant can be from first year till internship (only one intern in one team is allowed).
- Each team/individual may submit **only one abstract**.

TIME LIMIT: Each speaker will be given 8 minutes to speak followed by an interjection round by the judges for 2 minutes.

ABSTRACT FORMAT:
a. Language: English
b. Format: PDF format
c. Word limit: 600 (all inclusive)
d. Font: Arial
e. Title size: 16
f. Text size: 13
g. Line spacing: 1.5

ABSTRACT STRUCTURE MUST FOLLOW THE FORMAT:

1. Title
2. Field - Clinical / Preclinical / Paraclinical
3. Background
4. Objectives
5. Materials & Methods
6. Results
7. Conclusion

DETAILS

- NOTE - Permission letter from the head of the department to be taken if the case/information is taken from hospital or any institution other than one's own.
- Personal details must **NOT** be provided inside the abstract document. Doing so will lead to abstract disqualification. Personal details shall only be provided in the Google Form.

ORAL PAPER PRESENTATION

Click Here to Submit

- Payment for registration will be taken only after selection of the abstract (abstract submission is free).
- The last date to submit the abstract is **25th October 2026**.
- Abstracts will be submitted through via this Google Form
- Selected abstracts will be announced via the Asclepius Instagram page (@Asclepius9.0) as well as through personal email.

Organizers hold the authority to amend or adjust the rules at any stage if required.

ORGANISERS

- Ishita Singh 7209957180
- Vaishnavee Pachori 7016480981

RULES

- **The presented research must have been conducted and completed within the last 3 years, and the presenter must be listed as an author.**
- **Formal instituitional ethics committee (IEC) clearance is mandatory for all primary research studies prior to the presentation.**

PLAGIARISM, IMPROPER CITATIONS, OR MISSING REFERENCE LISTS WILL RESULT IN DIRECT DISQUALIFICATION.

POSTER PRESENTATION

"The eye sees only what the mind is prepared to comprehend." — Henri Bergson

ABOUT

Have you ever come across a clinical insight, research finding, or medical concept that made you look twice? Poster Presentation gives you the canvas to bring your idea to life.

This is your chance to transform complex medical concepts into clear, creative, and compelling visual stories. Showcase rare conditions, unusual presentations, innovative management approaches, or research that sparked your curiosity.

A picture may be worth a thousand words. Make yours count.

ELIGIBILITY CRITERIA

- Only **Medical UG students** are permitted.
- Participation can be undertaken as a team of two individuals or by a single participant for each presentation.
- Per team only 1 intern will be allowed to participate.

TIME LIMIT: Each team will be given 7 minutes to speak followed by an interjection round by the judges for 3 minutes.

- For research based poster refer abstract guidelines from oral paper presentation.
- For case based poster please refer to the abstract from case presentation.

ABSTRACT FORMAT:

a. PDF format only

b. English only

c. Word limit - 400 words (all inclusive)

d. Font - Arial

e. Title size - 16,

f. Normal text - size - 13

g. Line spacing - 1.5

PRESENTATION CAN BE UNDER FOLLOWING CATEGORIES:

1. Pre clinical and para clinical
2. OBG & Paediatrics
3. Surgery
4. Medicine

ABSTRACT DETAILS

Payment for registration will be taken only after selection of the abstract. (Abstract submission is free).

NOTE - *Permission letter from the head of the department to be taken if the case/information is taken from hospital or any institution other than one's own.*

POSTER PRESENTATION

MEDICAL SHARK TANK

ABOUT

Have a groundbreaking idea that could address a real challenge in healthcare?
Medical Shark Tank gives aspiring innovators the stage to take their concepts before a panel of investors and turn promising ideas into impactful solutions.

Pitch your medical device, digital health solution, novel therapeutic concept, or healthcare innovation with clarity, evidence, and purpose. Demonstrate the problem, present the potential benefits of your solution using data and real-world examples, and convince the sharks of its potential.

ELIGIBILITY CRITERIA

- Team of **1 to 3 people per pitch**.
- Only **Medical Undergraduates** allowed.
- Only **one pitch from each team** is permitted. Only one participant per team will submit the abstract.
- Only 1 intern per team is allowed to participate.

ABSTRACT STRUCTURE

a. Title
b. Introduction
c. Aim
d. Methodology
d. Results
e. Implications
f. Conclusion

ABSTRACT FORMAT:

a. PDF format only
b. English only
c. Word limit - 350 words (all inclusive)
d. Font - Arial
e. Title size - 16,
f. Normal text - size - 13
g. Line spacing - 1.5

DETAILS

Identify the problem.
Present the solution.
Make your idea count.

Stage 1- Idea Submission:

- Submit abstracts outlining your presentation before the specified deadline.

Stage 2- Abstract Evaluation:

- The sharks will assess the abstracts, and selected teams will earn the chance to pitch at the event.

Stage 3- The Pitch:

- Each participant gets 7 minutes to pitch their concept and win the sharks over.

MEDICAL SHARK TANK

STUDENT SYMPOSIUM

"Education is not the filling of a pail, but the lighting of a fire." - W.B. Yeats

ABOUT

Every great physician begins as a curious student- one who dares to question, explore, and teach. The Student Symposium is where that spirit comes alive, giving medical undergraduates a stage to transform textbook knowledge into compelling, memorable learning experiences.

Designed to cultivate clear communication, collaboration, and public speaking, teams dive deep into a medical topic of their choosing, then reimagine it through storytelling, visuals, and creativity, making complex science feel intuitive and engaging for their peers.

Whether you're just beginning your medical journey or already navigating the clinical years, this symposium is your chance to share knowledge, foster insightful discussions, and present with creativity and purpose.

ELIGIBILITY CRITERIA

- Team of 2-6 members from the same college/institution.
- Only one participant per team is required to submit the abstract.
- Only 1 intern per team is allowed to participate.

TIME LIMIT: 20 minutes
[Presentation: 15 min + Interjection round: 5 min]

ABSTRACT STRUCTURE

1. Title
2. Objectives
3. Outline of Presentation
4. Importance of the Topic
5. References

ABSTRACT FORMAT:

a. PDF format only
b. English only
c. Word limit - 500 words (all inclusive)
d. Font - Arial
e. Title size - 16,
f. Normal text - size - 13
g. Line spacing - 1.5

DETAILS

PRESENTATION CAN BE UNDER FOLLOWING CATEGORIES:

1. Pre and Para Clinical
2. Clinical

Teams may use any mode of presentation:

- *Powerpoint slides*
- *Working models*
- *Videos*
- *Flowcharts / Mind maps*
- *Props*
- *Any other innovative format*

1 PRE AND PARA CLINICAL QUIZ

2 CLINICAL QUIZ

3 MICROBIOLOGY QUIZ

PRE AND PARA CLINICAL QUIZ

"BEFORE MEDICINE ASKS YOU TO REMEMBER, IT ASKS YOU TO UNDERSTAND."

ABOUT

Where every clinical answer begins with a basic question.
Step into Occam's Razor, where the knowledge built across the first three years of medicine stop existing as isolated chapters and begin speaking to one another.
The trick is not merely knowing the fact. It is knowing why it matters,
Medicine begins in curiosity and finds its answers in evidence.

WHAT'S IN STORE?

- Mind-bending MCQs that challenge your knowledge and instincts.
- Rapid-fire rounds where quick thinking makes all the difference.
- Image & diagnosis challenges that tests the eye beyond the obvious.
- The Occam Twist: If you can explain it simply, you may just survive it.

WHO CAN PARTICIPATE?

- Phase 1 to Phase 3 Part 2 students
- Team size: 2 participants
- Only one Phase 3 Part 1 or Phase 3 Part 2 student is allowed per team
- Lone participants are welcome

CLINICAL QUIZ

"LISTEN TO YOUR PATIENT; HE IS TELLING YOU THE DIAGNOSIS."
-WILLIAM OSLER

ABOUT

Where every symptom is a clue, and every clue tells a story.

Welcome to Occam's Razor: Clinical Quiz, where medicine leaves the pages of the textbook and enters the uncertainty of the bedside.

Here, symptoms whisper, signs mislead, investigations reveal, and the best answer often belongs to the team that can see the pattern before everyone else does.

WHAT'S IN STORE?

- **Case-based conundrums:** Clinical scenarios where every clue brings you closer to diagnosis.
- **Images that speak:** ECGs, X-rays, scans, clinical photographs and bedside findings where details make all the difference.
- **Emergency & differential-diagnosis rapid rounds:** Split second decisions and competing possibilities that tests your instincts.
- **Treatment trails:** Questions that go beyond diagnosis to challenge your clinical judgement.
- **The Occam Challenge:** Familiar illnesses in unfamiliar disguises, where simplicity. wins over complexity.

WHO CAN PARTICIPATE?

- Open to all
- Team size: 2 participants
- Lone participants are welcome

QUIZ FORMAT

1. Online Preliminary Round: 10th November 2026
2. Offline Preliminary Round: 4th December 2026

MICROBIOLOGY QUIZ

THE SMALLEST LIFE FORMS HAVE WRITTEN SOME OF MEDICINE'S LARGEST STORIES.

ABOUT

Where the smallest suspects are often the biggest culprits.

You may never see them with the naked eye. Yet they have shaped epidemics, changed the course of wars, challenged entire health systems and forced medicine to evolve time and again.

Come join us for the Microbiology Quiz, the latest challenge under Occam's Razor, where every stain, colony, toxin, vector, and resistance pattern is part of a larger story.

Here, a tiny organism may reveal itself through a colour on culture, a peculiar arrangement on Gram staining, an unexpected transmission route or one clinical clue hidden deep inside the case.

The organism may be microscopic; the reasoning may not be.

WHAT'S IN STORE?

- **Microscopy & culture mysteries:** Where recognition is only the beginning.
- **Clinical microbiology cases:** Symptoms, signs and investigations woven together to test whether you can identify the organism behind the disease.
- **Outbreak & epidemiology investigations :** Asks you to trace the infection back to its source.
- **Resistance & immunology puzzles:** Antimicrobial mechanisms, susceptibility patterns, host responses, vaccines and therapeutic dilemmas that demand deeper reasoning.
- **The Occam Twist:** From familiar pathogens to unexpected clues, one detail may reveal the answer while another quietly leads you away.

WHO CAN PARTICIPATE?

- Open to All
- Team size: 2 participants
- Lone participants are welcome

QUIZ FORMAT

1. Offline Preliminary Round: 1st December 2026
2. Offline Finals: 1st December 2026

DEBATE

EVERY VOICE HAS A STANCE. DEFEND YOURS!

ABOUT

Welcome to the Debate Chamber, where everyone has an opinion, but not everyone can defend one.
Challenge what you know! Defend what you believe! Question what everyone else takes for granted!
Bring your perspective to the stage, stand by your arguments, and put your reasoning to the test as you dissect evidence and defend your stance.
Bringing together medicine, science, logic, and a little bit of chaos, this is a platform for discussion, reasoning, and perspectives on issues that often go overlooked. Put your knowledge, quick wit, spontaneity, and presence of mind to the test as you engage in a battle of ideas where the strongest argument may just change the way you think.

No. of participants: 2

Challenge the argument. Defend your perspective. Let your words make the difference.

NOTE: All participants are requested to respect the person and challenge the argument while sticking to the topic.

FORMAT

- **Qualifying Round:** Both members participate individually, with one speaking for and the other against the motion. Their scores are combined to determine which teams advance.
- **Semifinals**: The shortlisted teams go head-to-head, with both members presenting their arguments either for or against the motion.
- **Finals**: The strongest contenders face off in the final round.
- **The Motion**: Topics will be revealed one day prior to the event.
- **The Debate**: Each team gets 5 minutes to present its case, followed by 3 minutes of rebuttal and Q&A with the judges.

MEDICAL MARATHON

THE RACE BEGINS. THE MYSTERY AWAITS. ARE YOU READY?

ABOUT

Welcome to the Medical Marathon – an exhilarating journey of mystery, teamwork, problem-solving, and fun, every challenge takes you **one step closer to the finish line.**

Across a series of thrilling rounds, teams will put their wit, instincts, and teamwork to the test.

With twists, clues, unexpected turns, and challenges designed to test different facets of your mind, this is no ordinary marathon.

One of the highlights is the iconic, high-energy **Treasure Hunt**, where teams will race against time, follow the trail, decode clues, and uncover what lies at the end.

But the treasure won't come easy – participants will have to earn their way through every challenge before they can reach the finish.

Can you crack the clues? Can you conquer every challenge?

Can you make it to the finish line?

Number of participants per team: 3

RULES:

1. Each team consists of 3 players.
2. Gather your team. Stay sharp. Trust your instincts.
3. Only one team will conquer the course. Will it be you?

Duration:

- ***1st December: 2:30 to 5:30 pm***
- ***2nd December: 2:30 to 5:30 pm***

PRIZES

1ST PRIZE: RS. 8000

MINUTE MEDICINE

FOUR ROUNDS. COUNTLESS CLUES. ONE RACE AGAINST TIME.

ABOUT

Enter the realm where instinct meets intellect - a space designed to test the perfect fusion of clinical quick-thinking, analytical reasoning, and creative interpretation.

Minute Medicine is not just a race against time, but a transformation of wit into wisdom, where the interplay of speed, logic, and intuition reveals the true diagnostic master.

Participants will journey through a series of dynamic and thoughtfully crafted rounds; symptoms, signs, and medical clues are transformed into clues, pushing contestants to translate clinical understanding into visual cues.

Time may be fleeting, but the brilliance you demonstrate endures.

Will you decode the diagnosis before the clock strikes zero?

FORMAT:

1. **Pictionary** – draw your diagnosis: symptoms, signs, conditions, and medical clues take visual form as you race to sketch what your teammates must decipher.
2. **Diagnostic Charades** – diagnose before the clock does: Decode clinical clues, recognise patterns, and put your conceptual recall to the test as you race towards the diagnosis.
3. **Musical Diagnosis** – where every beat has a differential: Let musical clues become unexpected pathways to diagnosis, where listening closely and thinking creatively go hand in hand.
4. **Medical Jeopardy** – time to put your neurons on trial: Pick your category, play for points, and put your clinical recall to the test as tricky medical clues and rapid-fire questions keep you on your toes.

Number of participants per team: 2-3

MALARKEY

MAY THE ODDS BE EVER IN YOUR FAVOR.

ABOUT

Welcome to Malarkey – a realm of medical madness where logic gets a hilarious makeover.

There are moments in medicine when reason illuminates the answer. Malarkey begins precisely where reason decides to leave the room.

Enter a world where the improbable is prescribed with confidence, the ridiculous is defended with conviction, and even the most outrageous medical idea is given its moment before the jury.

Participants will be handed wonderfully impossible scenarios and challenged to make them sound almost believable. Perhaps sunburn can truly be cured by denial. Perhaps a crab really is the perfect defibrillator. In Malarkey, the only limit is how convincingly you can defend the indefensible.

With no textbook to hide behind and no memorised answer to rescue you, this is a test of quick thinking, verbal dexterity, wit, imagination, and the peculiar ability to find logic where none was intended.

FORMAT:

1. A stage for one. Each participant competes individually, armed only with their wit, imagination and a generous interpretation of medical logic.
2. 120 seconds to turn complete nonsense into something almost convincing.
3. One round. No second chances. Make every word count.
4. Participants will be judged on fluency, clarity, originality, language, creativity, and presentation.
5. A judge will decide whose argument performs the finest act of intellectual alchemy – turning nonsense into something that somehow makes perfect sense.

Number of participants allowed: 1

PRIZES

IST PRIZE: RS. 4000

2ND PRIZE: RS. 2000

PANELS

SCROLLS TO SCRUBS

A Medical Content Creator Panel

YEARS OF LEARNING. A LIFETIME OF BECOMING.

ABOUT

The value of experience is not in seeing much but in seeing wisely

Medicine is taught in lecture halls and wards but much of it is lived in the spaces between them. In the friendships that carry us through long days. In the relief of finally understanding something difficult. In the laughter that survives exhaustion. In the small moments that slowly make the white coat feel like our own.

This panel brings together three young doctors who have chosen to share that side of medicine with honesty, warmth and wit.

MEET OUR PANELISTS:

- **Dr Sai Sriya Yadavalli; @drcoolmitochondria**

A graduate of Kasturba Medical College, Manipal, Sriya has a way of making difficult medicine feel less distant.
Her content is clear, curious and full of life, turning learning into something that feels less like pressure and more like discovery.

- **Reda Shaikh; @redaashaikh**

A final year student at Grant Medical College, Mumbai, Reda captures medicine as it is actually lived.
The uncertainty. The humour. The little victories that never make it to a mark sheet but somehow become the memories that stay.

- **Dr Asma Kamal; @pagingdrkamaal**

A graduate of GMERS Medical College, Gujarat, Asma brings warmth, wit and ease to the everyday rhythm of medicine. She makes learning feel conversational while allowing the person behind the profession to remain visible.

Together they open a conversation about medicine beyond marks and social media beyond numbers. About ambition without losing tenderness. About learning without losing curiosity. About becoming a doctor without forgetting the person becoming one.

MACHINE X MEDICINE

WHEN MACHINES LEARN MEDICINE, MEDICINE MUST REMEMBER THE HUMAN.

ABOUT

Medicine has always been more than knowledge. It is judgement, instinct, uncertainty, and trust.

As **artificial intelligence** reshapes clinical practice, medical education, and research, it opens new possibilities while raising questions about ethics, patient safety, and the limits of technology.

What should we trust? What must remain human? And when machines begin to influence our clinical decisions, who bears the responsibility?

Machine x Medicine explores the evolving relationship between human expertise and artificial intelligence, looking beyond its capabilities to examine its limitations, the importance of responsible integration, and the role it will play in shaping the future of healthcare.

WHAT YOU WILL LEARN:

1. **At the bedside:** From reading images to supporting diagnosis and difficult clinical decisions, technology is beginning to stand quietly beside the physician.
2. **Beyond the classroom:** A changing world of learning, research and discovery, where questions travel faster and new ideas find their way into medicine sooner.
3. **Behind the code:** A closer look at trust, privacy, bias, safety and the responsibility that must follow every powerful tool.
4. **The human hand:** Where judgement, empathy and experience still matter most, even when machines can see patterns we might miss.
5. **Closer to home:** What this future means for India, from crowded hospitals to rural clinics, and whether innovation can truly reach the people who need it most.

CARDIAC NEXUS

"WHERE THE HEART'S RHYTHM MEETS ITS IMAGE."

ABOUT

The heart tells its story in two languages: the **electrical rhythm captured on an ECG** and the **living picture revealed by echocardiography**. Reading both with confidence is a core skill for every future clinician, and it often decides how quickly a patient gets the right care. Cardiac Nexus brings these two worlds together in one session, led by faculty from the Departments of **General Medicine** and **Cardiology**.

WHAT'S INSIDE?

- **Interactive Case Activity:** A clinical case that sets the scene and draws you into thinking like a clinician.
- **Briefing on ECG**: The fundamentals of reading an **electrocardiogram**, from rate and rhythm to common abnormalities.
- **Overview on Echocardiography**: The basics of cardiac ultrasound, including key views and what they show about structure and function on a **4D Echocardiography Machine**
- **Clinical Applications**: How ECG and echo findings combine to guide diagnosis and decisions in real patients.

ORGANISERS

- **Saanvi Sharma** (+966) 504753241
- **Sara Chauhan** 9034512898
- **Misha Kalra** 9811499976

- **Seats**: 30
- **Duration**: 9:00 AM TO 12:00 PM

WHO CAN PARTICIPATE:

Medical students from PHASE 1 onwards

VENUE:
SKILL & SIMULATION LAB, AGRAHARA

Model United Nations

JSS MEDICAL COLLEGE

MODEL UNITED NATIONS

5TH EDITION

ABOUT JSSMC MUN

JSSMC MUN 5.0 returns as a part of ASCLEPIUS 9.0, marking the fifth edition of one of Mysuru's most prestigious Model United Nations conferences. Since its inception in 2022, JSSMC MUN has grown into a platform where young minds come together to debate, negotiate, and engage with the issues shaping our world.

Model United Nations is an academic simulation of the United Nations in which participants represent Member States and engage in formal debate, moderated and unmoderated caucuses and resolution drafting. Delegates are expected to understand the policies and interests of their assigned country and represent them throughout the committee while working with others to address complex issues.

Over four editions, JSSMC MUN has been shaped by the delegates, discussions and ideas that have filled its committee rooms. Its committees have explored questions of international peace and security, governance, development, human rights and global cooperation, creating a space for informed debate and meaningful exchange.

As JSSMC MUN enters its fifth edition, it carries forward this experience while welcoming a new generation of delegates. With carefully curated committees and agendas, JSSMC MUN 5.0 seeks to create a conference where debate extends beyond rhetoric, disagreement creates space for dialogue, and where diplomacy becomes a means of finding common ground.

As a part of ASCLEPIUS 9.0, JSSMC MUN 5.0 invites delegates to step into the room, take a position, challenge perspectives, and become part of a continuing legacy of debate, diplomacy, and deliberation.

UNITED NATIONS WOMEN

The United Nations Entity for Gender Equality and the Empowerment of Women, or UN Women, works to advance women's rights, gender equality and the empowerment of women and girls. What makes UN Women distinctive is the range of issues that can be examined through gender equality; linking questions of representation, economic opportunity, safety and social policy. The challenge lies in translating broad international commitments into policies that reflect different national realities. Legal systems, social conditions, economic capacity, and political priorities can shape how states approach the same issue. Delegates can therefore expect discussions on representation, women's economic participation, protection from violence and the implementation of gender-responsive policies.

AGENDA: Towards Safer and More Equitable Workplaces: Addressing Gender-Based Violence and Discrimination Against Women

Gender-based violence and discrimination continue to pose significant barriers to women's safety, equality and meaningful participation in the workplace. Despite the introduction of legal protections and institutional safeguards in many countries; challenges such as workplace harassment, unequal treatment, retaliation against those who report abuse and gaps in enforcement persist. The agenda will examine how legislative reform, state oversight and employer accountability can strengthen workplace protections and ensure justice for affected women. It will assess reporting and grievance redressal mechanisms, institutional responsibility and the challenges of enforcing safeguards across different national legal and economic contexts. The Committee will also explore how international cooperation can promote safer, fairer workplaces and ensure meaningful accountability and equal opportunities for women.

UNITED NATIONS OFFICE ON DRUGS AND CRIME

The United Nations Office on Drugs and Crime or UNODC, works with Member States to address drugs, crime, corruption and terrorism while promoting justice and the rule of law. Its mandate covers areas including transnational organised crime, drug control, criminal justice and cyber-crime. Its defining feature is its cross-border nature; as trafficking networks, illicit financial flows and organised crime often operate across several jurisdictions. This places UNODC at the intersection of international law, security, governance, technology and criminal justice. Addressing these challenges requires cooperation while also navigating questions of jurisdiction and sovereignty. Delegates can expect debate on cross-border cooperation, trafficking, drug control, cybercrime, criminal justice and the balance between national sovereignty and international enforcement.

AGENDA: Preventing the Diversion of Dual-Use Chemicals for Illicit Synthetic Drug Production while Safeguarding Legitimate Trade and Research

The rapid expansion of synthetic drug markets has created challenges in controlling chemicals used in legitimate drug production. Legitimate pharmaceutical and scientific applications make complete restrictions impractical while criminal networks exploit gaps in precursor-molecule controls, international supply chains, social media and digital marketplaces to source and move chemicals across jurisdictions.
The Committee must therefore consider how international cooperation can prevent diversion of dual-use chemicals without disrupting legitimate trade and scientific activity. This includes strengthening precursor monitoring, improving information-sharing between States and industry, addressing vulnerabilities in digital marketplaces and supply chains and developing proportionate measures that preserve legitimate trade, research and state sovereignty.

UNITED NATIONS SECURITY COUNCIL

The United Nations Security Council is the UN organ with primary responsibility for maintaining international peace and security. Under the UN Charter; it can recommend peaceful settlements, impose sanctions, and in certain circumstances, authorise the use of force. Its fifteen members include five permanent members: China, France, Russia, the United Kingdom, and the United States; whose veto power makes strategic interests and diplomatic relationships central to its functioning. Debate in the UNSC often reflects wider tensions in international politics. States may recognise the same crisis while disagreeing over its causes, the appropriate response or the extent of international involvement. Delegates should expect fast-paced geopolitical debate, crisis management, negotiations and discussion of sanctions, peacekeeping and the use of force.

AGENDA: The Iran Crisis: Addressing Threats to Regional Stability and International Peace and Security

The Iran crisis has developed into a wider regional security concern involving Iran, Israel, the United States and several countries across the Middle East. Continued escalation has raised concerns over territorial sovereignty, civilian safety and regional stability while tensions across the Gulf have affected neighbouring states, international shipping and the security of the Strait of Hormuz.

Alongside these immediate concerns, the crisis involves questions of nuclear non-proliferation, international sanctions, diplomatic engagement and the role of the United Nations in maintaining international peace and security. With a temporary ceasefire announced on 1 October 2026, the immediate escalation has been paused but underlying issues remain unresolved.

LOK SABHA

The Lok Sabha or House of the People, is the lower House of the Parliament of India. Its members are directly elected and the House plays a central role in law-making, representation, debate and scrutiny of the government. As an independent parliamentary committee, The character of the committee comes from the political dynamics of Parliament itself. Party positions, individual political identities, constituencies, alliances, and the relationship between the government and opposition can all shape debate. Delegates must therefore consider not only the merits of a policy but also its political implications, implementation and impact on different sections of society.

AGENDA: Public Accountability in India: Examining Institutional Integrity, Administrative Responsibility and the Right to Protest

Institutional integrity lies in how consistently institutions uphold their principles through fair decisions, transparent procedures and a commitment to their responsibilities; equally important is how they address concerns when they arise. Recent controversies have raised questions about examination security and accountability as well as the need for transparent electoral procedures and safeguards for voter inclusion.

Public accountability requires adequate procedures and appropriate responses to concerns. While governments must implement policies effectively, the opposition and civil society play an important role in scrutinising decisions and their consequences. A democracy must balance effective governance with the right to question authority while ensuring institutional responsibility and protecting the right to dissent.

INTERNATIONAL PRESS

At JSSMC MUN, the International Press (IP) forms an integral part of the conference, documenting and reporting on the proceedings as they unfold. Beyond reporting on debates; the IP observes the discussions, interactions and developments across the conference, bringing different perspectives and stories to the wider conference community.

The International Press is responsible for reporting, publishing and documenting the conference. From council proceedings and delegate interactions to press conferences and interviews the IP captures the events and developments that shape the conference, ensuring that the proceedings are recorded beyond the council rooms.

The IP also provides a platform for aspiring journalists, writers, editors and photographers to develop their skills through interviews, opinion pieces, news reports and photojournalism. Their work comes together through newsletters and other publications, combining articles, event highlights and visual coverage to reflect the experience of the conference.

Throughout the conference, members of the International Press work under the guidance of the Editor-in-Chief, Executive Editor and Under-Secretary-General of Communication and Public Information. Through this process they receive guidance and feedback while developing their own approach to reporting, writing and documenting the conference.

PRIZE POOL

UNW, UNODC and Lok Sabha:

- Best Delegate – Rs. 5,000
- High Commendation – Rs. 3,000
- Special Mention (2) – Rs. 1,500

UNSC:

- Best Delegate – Rs. 6,000
- High Commendation – Rs. 3,500
- Special Mention– Rs. 1,500

International Press:

- Best Reporter – Rs. 2,000
- Best Photo Journalist – Rs. 1,000

EVENTS

ART COMPETITION

ABOUT

Looking for an opportunity to add a little colour to a black and white life and channel your inner Picasso? Then dive into a realm of creativity at our Art Event designed especially for medical students. Whether you're looking to unwind, find new inspiration, enhance your understanding of the human condition through art, this event offers a refreshing break from your studies. So, keep your brushes prepared and let your imagination run wild.

RULES

1. Work must be original.
2. Submissions with watermarks or other credentials will be disqualified.
3. Themes for the event will be announced on the Instagram page @asclepius9.0.
4. Submissions will be made via Google Forms, The link to the form is available on the respective event page.
5. All entries must be original, and any instances of plagiarism will result in disqualification.
6. Participants must be Asclepius delegates to participate.

PRIZES

1ST PLACE:
- RS. 1,250

2ND PLACE:
- RS. 750

POETRY

ABOUT

Join us at our Poetry event, where the art of healing meets the beauty of verse. This unique gathering invites students to share their creative expressions, blending the worlds of medicine and poetry. Experience the profound human stories, the trials and triumphs of healthcare, and the deep connections between caregivers and those they tend to, all brought to life through poetic expression.Whether you're a seasoned poet or a first-time writer, this event offers a welcoming platform to showcase your talent and find solace in the shared stories of the medical community.

RULES

PHOTOGRAPHY

ABOUT

In the fast-paced realm of medicine, where each moment tells a tale of resilience, empathy, and innovation, we often miss the artistic beauty that blends with clinical practice. As we gather for this year's medical conference, we invite you to explore a different angle-one seen through the lens of a camera. Capture the essence of your creativity, document compelling stories, and aim for photographic excellence. This contest celebrates the quirky, the bold, and the captivating. Whether you're a seasoned medical professional with a keen eye or an amateur photographer with a passion for storytelling, we welcome your distinct perspective. So, prepare your cameras and sharpen your vision for an extraordinary showcase of pixels and passion.

RULES

RULES & REGULATIONS

1. Log on to our website for details regarding base delegate fee & per event fee.
2. Kindly note that **cancellation or refund requests will not be entertained** - Registrations and purchase of events will be conducted only on the webpage.
3. All delegates are requested to dress in decent attire, appropriate for the conference. Delegates attending JSSMCMUN are required to wear a formal attire and those attending the Cultural Night are requested to wear a traditional attire.
4. Team Asclepius will not be responsible for any loss or theft of personal belongings during the conference.
5. All team members are required to register as delegates for team events.
6. Refunds in case of double registration for events will not be entertained.
7. All delegates are requested to carry their **original college IDs** with them.
8. Registrations for workshops are on a first come first serve basis and are subjected to availability.

HOW TO REGISTER

Step 1: OPEN THE ASCLEPIUS WEBSITE

Enter the world of Asclepius. Just click on the link, and you're already halfway to the adventure!

Click here to open the website

Step 2: SCROLL THROUGH OUR EVENTS

Browse through the events and shortlist the events of your choice.

Step 3: CHOOSE DELEGATE, MUN OR QUIZ REGISTRATION

Register for Workshops, Literary events, Cardiac Nexus, Scientific Events, Panels, and Online events through Delegate registration.

Occam's Razor (Pre & Para clinical and Clinical Quiz) and **MUN** have separate registrations.

Step 4: CHOOSE YOUR DELEGATE TIER

In delegate registration, choose the delegate tier of your choice.

Complete the payment for Delegate Registration, you will receive a confirmation E-mail.

Step 5: PICK THE EVENTS OF YOUR CHOICE FROM THE EVENTS TABLE

After receiving the delegate payment confirmation, log-in again to choose the events of your choice from the events table. You can choose multiple events at once.

Step 6: PAYMENT

PLEASE NOTE: ***No refunds*** will be initiated and no event change requests will be entertained so please choose your events carefully before making the final payment.

Step 7: CONFIRMATION E-MAIL

You will receive a confirmation mail on your registered e-mail ID.

DELEGATION GUIDE

Choose the delegation tier that best suits your Asclepius experience.

ESSENTIAL DELEGATION

What it includes:

1. Access to cultural night, which is to take place from 6:00 PM onwards on Day 4.
2. Comprehensive delegate kit, which includes items like pens, file, notepad and complimentary Asclepius merch.
3. A total of *six meals are included* – lunch on all five days, along with dinner on Cultural Night.

Early Bird Price	Standard Registration Price
Rs. 699	Rs. 799

BASIC DELEGATION

What it includes:

1. Access to cultural night, which is to take place from 6:00 PM onwards on Day 4.
2. Comprehensive delegate kit, which includes items like pens, file, notepad and complimentary Asclepius merch.
3. Does NOT include meals

Early Bird Price	Standard Registration Price
Rs. 549	Rs. 599

NOTE:

- Quiz and MUN participants will have to register newly as Delegate to buy any other event
- Only one single payment for one event
- Multiple events can be selectable for payment
- No switch over payment option once the payment is done
- Only standard registration price of Rs.199 for Pre Para and Clinical Quiz and Rs. 349 for Microbiology Quiz.

STANDARD REGISTRATION: TILL 30TH NOVEMBER 2026

***All payments are final, NO REFUND will be issued.**

A MESSAGE FROM OUR MENTORS

Dear Delegates,

It gives me immense pleasure to welcome you to Asclepius 9.0. Over the years, Asclepius has evolved from a student-led academic initiative into a vibrant platform that brings together young minds united by a shared enthusiasm for medicine, research, innovation, and learning. Its continued growth is a reflection of the curiosity, dedication, and collective efforts of the students who have contributed to its journey.

Asclepius represents much more than a conference. It is an opportunity to engage with ideas beyond the confines of the classroom, to question established perspectives, and to explore the many dimensions of medicine and healthcare. Through scientific inquiry, creative expression, healthy competition, and meaningful interaction, the conference seeks to foster an environment in which knowledge is not merely acquired, but actively explored and shared.

The carefully curated sessions, workshops, competitions, and academic activities have been designed to encourage intellectual engagement while providing valuable opportunities to learn from peers and experienced professionals. I encourage each of you to participate with an open mind and a spirit of curiosity.

As future healthcare professionals, your journey will demand not only knowledge and clinical competence, but also the ability to think critically, collaborate effectively, and approach challenges with creativity and purpose. I hope that Asclepius 9.0 provides you with opportunities to develop these qualities while building meaningful connections and gaining experiences that you will carry forward in your professional journey.

It is my honour to be associated with Asclepius and to witness its continued growth. I extend my warmest wishes to all the delegates and look forward to witnessing the exchange of ideas, learning, and collaboration that will define this edition.

I wish you all a memorable and enriching experience at Asclepius 9.0.

Warm regards,
Dr. Narayanappa D.
Principal and Chairman, NSS Advisory Committee,
JSS Medical College, Mysuru

A MESSAGE FROM OUR MENTORS

Dear Delegates,

A warm welcome to all of you at Asclepius 9.0. As medical students, some of our most meaningful learning happens beyond the pages of a textbook – through conversations, shared experiences, new ideas, and the questions we learn to ask along the way. Asclepius brings these opportunities together, creating a platform where students can learn, explore their interests, and grow alongside one another.

The conference offers a diverse range of experiences, from scientific events and workshops to quizzes, literary activities, and engaging discussions. More than a routine academic gathering, Asclepius is an opportunity to step beyond familiar perspectives, exchange ideas, and engage with the many dimensions of medicine.

I hope all of you participate with curiosity and enthusiasm, whether you are presenting an idea, taking part in a competition, attending a workshop, or simply engaging in conversation. These shared experiences can often become some of the most memorable parts of our journey through medicine.

May Asclepius 9.0 leave you with new ideas, lasting connections, and a renewed wonder for learning and exploration.

Wishing you all a memorable, and enjoyable experience.

With best wishes,

Dr. Ramya C.M,

HOW TO REACH MYSURU?

FLIGHTS

- DIRECT FLIGHTS FROM MAJOR HUBS- BANGALORE, HYDERABAD, CHENNAI, GOA, HUBLI. (DURATION- 2 HOURS)
- CONNECTING FLYBUS (BUS SERVICE) FROM BANGALORE AIRPORT TO MYSURU (DURATION - 3 HOURS)

TRAINS

- VANDE BHARAT - 10:20 A.M. (EVERYDAY EXCEPT WEDNESDAY)
- SUGGESTED - HAMPI EXPRESS (AT 5:10 AM) - REACHES MYSURU FROM BANGALORE IN 2 HOURS
- OTHER OPTIONS- MYSURU EXPRESS AT 5:40 AM (EVERYDAY), RAJYA RANI EXPRESS AT 11:30 AM (EVERYDAY), MALGUDI EXPRESS AT 1:50 PM (EVERYDAY), WODEYAR SUPER FAST EXPRESS AT 3:15 PM

BUSES

- BUSES ARE AVAILABLE FROM BANGALORE TO MYSORE APPROXIMATELY EVERY 10 MINUTES. THE MOST PREFERRED OPTION IS THE AIRAVAT BUSES. KEMPEGOWDA BUS STATION (KBS) IS THE CLOSEST TO BANGALORE CITY.

BY ROAD

- VIA BANGALORE- MYSORE HIGHWAY
  DISTANCE- 145 KMS ESTIMATED TIME OF TRAVEL- 2 HOURS 45 MINS

JSS Medical College,

Mysuru,
Karnataka
India
