ABOUT THE SDG:

Cities are engines for sustainable development. It is where ideas, commerce, culture, science, and productivity thrives. Urban spaces offer opportunities for people to prosper economically and socially, but this is only possible in prosperous cities that can accommodate people in decent jobs and where land resources are not overwhelmed by growth. Unplanned urban sprawl, as cities spill beyond their formal boundaries, can be detrimental to national developmental planning and to the global goals for sustainable development. Our urban areas are also emitters of greenhouse gases and contribute to climate change. Half of the global urban population breathes air that is 2.5 times more polluted than standards deemed acceptable by the World Health Organization.

India is urbanising rapidly. Between 2001 and 2011, the country's urban population had increased by 91 million. India is projected to add 416 million urban dwellers between 2018 and 2050. By 2030, India is expected to be home to seven mega-cities with populations above 10 million. 68% of the country's total population live in rural areas, while 17% of the country's urban population live in slums. The Government of India's Smart Cities Mission, the Jawaharlal Nehru National Urban Renewal Mission, and the Atal Mission for Rejuvenation and Urban Transformation (AMRUT) are working to address the challenge of improving urban spaces. The prime minister's Pradhan Mantri Awas Yojana aims to achieve housing for all by 2022.

The world's population is constantly increasing. To accommodate everyone, we need to build modern, sustainable cities. For all of us to survive and prosper, we need new, intelligent urban planning that creates safe, affordable, and resilient cities with green and culturally inspiring living conditions.

Status in India

- By 2030 India will have 7 megacities with population over 10 million
- 13% of urban households don't have sanitary toilets
- 31% live in urban area
- 17% of urban population lives in slums
- Over 1.2 million pollution related deaths in 2017

Faculty and students have actively contributed for Clean City initiative of Swachh Survekshan. The Institute has adapted to the concept of smart campus in the existing buildings and infrastructure. The founder organization JSS Mahavidyapeetha has set targets to attain the status of smart and sustainable campuses through key elements Viz., 1. Buildings & Infrastructure, 2. Education, Learning & Digitization, 3. Sports & Recreation, 4. Safety & Security, 5. Waste, Water, Air management, 6. Utilities – Water, Gas, Electricity, 7. Services & Connectivity, 8. Green environment resilience, 9. Governance & 10. Food & Health.

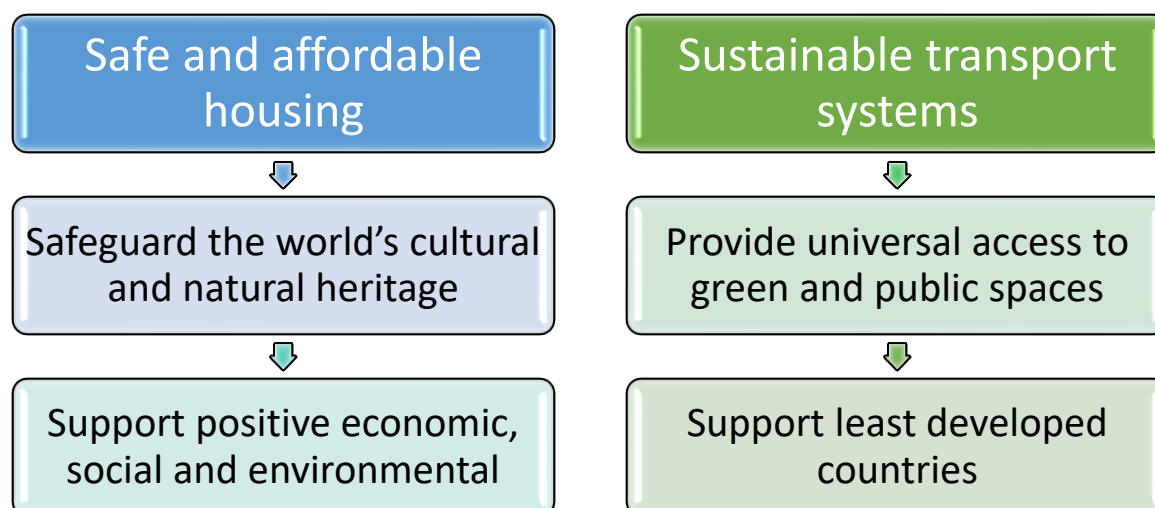

As an initial step, the institute has surveyed the available facilities, which would enable to either enhance or add smart features. Further, discussions and feedback from stake holders are in progress which would add significant values towards the goal. Students are the central part of the smart campus as they are the ambassadors of a sustainable future.

A Smart Campus actively learns from and adapts to the needs of its people and place, unlocking the potential of e-technology and enabling world-changing learning and research methodologies. Also to create an environment friendly atmosphere enabled with technology is the main goal of a smart campus.

JSS AHER has established its State of Art Campus using cutting edge technology. In order to achieve the smart campus status the institute and the constituent colleges have initiated the process of implementing technologies like

1. Smart Physical Security and Surveillance
2. Smart Wi-Fi Enabled Campus
3. Smart Metering
4. Smart Recycling Process
5. Smart Transportation System
6. Smart Energy Conservation and Utilization practice
7. Smart Hostel Management
8. Smart Canteen/food court management

Target Goals

OUR INITIATIVES

Public access to libraries

Awareness of medicinal herbs is created to public

Sustainable commuting practices

Free Transportations

Affordable housing

ACTIVITIES SUPPORTING SDG 11

HEALTHY LIVING STANDARDS AND WELLBEING OF URBAN POPULATION:

For the Wellbeing of people at JSS Medical College, several outreach activities are conducted through JSS Urban Health Center located at Medhar Block, Bamboo Bazaar, Mysuru and other rural (Primary Health Centres at Suttur, Kadakola, Hadinaru) and urban field practice areas (Urban Primary Health Centre at Bannimantap, Mysuru) under the Department of Community Medicine, Chamarajanagar Hospital, Megha Health camp, Religious Funfairs, Mobile Health Camps at rural settings, Health camps under Public Private Partnerships and through National Service scheme.

Science expo-2022 organized 09-07-2022 by Mysuru Science Foundation

Braving intermittent drizzle all through the day, over 10,000 school and college students and other Science enthusiasts from across the State took part in the Science Expo-2022 organised by **Mysore Science Foundation (MSF)** as part of its Decennial celebrations at Sadvidya Semi-residential PU College in Vijayanagar Second Stage, Mysuru on 09/07/2022. Science expo featured a variety of workshops, demonstrations, Aryabhata Mobile Planetarium 3D show, Mobile Science Lab, Nature Photo Expo, **Human anatomy and specimens**, Demonstration on Food adulteration detection, Nutrition status assessment, Science and Maths Models display, Robotics Models, Solar goggles, expo by Research students, HAM radio and 3D printing etc.

Former ISRO Chairman A.S. Kiran Kumar inaugurated the expo by offering floral tributes to the portraits of top scientists and operating a remote-controlled drone.

Speaking on the occasion, Kiran Kumar said that a human being shows interest in learning about the articles, the environment and other living creatures around, right from childhood. MSF President C. Krishne Gowda, Treasurer M.G.N. Prasad, senior CFTRI Scientist Dr. T. Thippeswamy, ISRO Scientist C.D. Prasad, Sadvidya Educational Institutions Secretary M.S.K. Narahari Babu and others were present.

Gross human anatomy specimens (cardiovascular system, respiratory system, genitourinary tract, gastrointestinal tract) and **plastination specimens** from the Department of Anatomy, JSS Medical College, Mysuru were exhibited and explained to the students by NSS unit faculties and postgraduates. The programme was scheduled from 9:30am to 5:30pm.

NSS Health Camp on 26-07-2022 at Dattagalli, Mysuru

“SPOORTHY” ladies wing of the builders’ association of “Builder’s Association of India” (BIA) has conducted a health check-up camp at Dattagalli, Mysuru under the aegis of JSS Medical College, Academy of Higher Education and Research, NSS wing, Mysuru on the 26th of July 2022, held from morning 11 AM-4 PM.

The camp was conducted in the construction (apartment) site at Dattagalli, where the actual building construction work was in progress. The camp was headed by the NSS wing medical college, Mysuru, and conducted in coordination with the physicians from the department of community medicine, JSS medical college. The program was started with the initial remarks by the doctors, regarding basic awareness among the common people on the concepts of health, cleanliness, and security measures at the construction site. While addressing the female participants special remarks were passed on the importance of menstrual hygiene, and the nutrition, by the lady physician.

The health camp activity included general health checkups along with the distribution of free medicines for general complaints and minor health issues. For the major complaints, the necessary advice was given to approach the concerned physician/hospital. Along with the physical examination the blood pressure was measured in all the participants, and blood sugar levels were checked by using a glucometer. More than 70 construction workers including males, females, and children took benefit from the camp.

Dr. Saurish Hegde, Dr. Ravali, Dr. Sumanth Kaushik, Dr. Neha, and Dr. Niharika, were actively involved in patient checkups, treatment and health advice. The NSS wing officers Dr. M.V Ravishankar and Dr. Manu G coordinated the whole event.

Health checkup camps in July 2022 conducted by JSS Urban Health Center, Medar block

Free Health checkup camps were organized and conducted by JSS UHC in month of July 2022 in temples of Medar block. Ashada month is an auspicious period for local residents where many people visit temple of goddess every Friday. On this occasion a free health checkup camps were held in Mariamma and Chamundeshwari temple medar block on every Friday mornings. Visitors of temple were screened for hypertension, malnutrition, clinical illness through examining Blood pressure, height, weight, BMI, SPO₂, HR. Health education was also provided on Nutritious diet, physical activities and personal hygiene. A total of 79 visitors availed the benefits. Among these 4 were severely obese, 17 were moderately obese and 28

were overweight and 5 under nourished. Severe hypertension was seen in 17 people who were referred to JSS UHC and managed accordingly.

A 2 days Oral health education and oral screening camp was organized at Government Higher Primary School, Medar Block, Mysuru on 26th&27th June 2023 from JSS Urban Health Centre. The purpose of the camp was to spread awareness about oral health and its importance, to educate the students about the brushing techniques and to motivate them to follow good oral hygiene practices along with maintaining a healthy diet. Students between the age of 6 to 9 were screened. A total of 70 students participated in the screening camp, among them 46 students were found to have dental problems. Referral codes were provided to all the 46 students with dental issues and referred to avail treatment at JSS Dental College and Hospital.

Department of Health System Management Studies maintains a culture which encourages and supports staff and students consistently to take part in various research and community activities. This participation facilitates hands-on expertise, creates avenues for job opportunities, protects cultural and natural heritage. Thus, leading towards resource optimization, risk reduction, awareness and contribution for self-sustainable societies.

Few of the initiatives from the department contributing towards this goal includes the following:

Faculty and Student Support in NABH Accreditation, JSS Hospital

Faculty and students of the department were involved in the NABH re-accreditation process of JSS Hospital. With the guidance and mentoring from the faculty, students have supported the hospital staff across various departments in documentation and file keeping activities. Faculty were nominated to accompany the NABH assessors for the 3 days onsite inspection.

Students Awards

Representing Department of Health System Management Studies (DHSMS), JSSAHER, at Annual National Conference on Safe and Sustainable Hospitals (SASH) 2022 was conducted at AIIMS Bhubaneswar on 24th and 25th of September 2022, our PhD scholar Dr. Shalini and MBA – Hospital Administration students, Mr. Ajmal, Mr. Tince and Mr. Nazeem participated in poster and oral paper presentation events. With the support of Dr. Mamatha H.K., HOD, DHSMS, under the guidance of Dr. Kanakavalli K Kundury, Students won the 1st and the 2nd best oral paper presentation awards respectively.

On 1st and 2nd June swasthyam” international public health symposium was organized by JSS AHER, school of public health and public health research institute of India at Sri Rajendra auditorium, JSS medical college, Mysuru. The theme of the conference was “public health, healthy living and sustainable development goals”.

Dr. Magesh rangasamy, 1ST year MBA HA, won the best debater for the topic gender bias in leadership roles and also won the best poster presentation on his paper titled “medical value tourism in india: a trend analysis towards SDG” and was provided with certificate of achievement and trophies for the same. Ms. Prathna N sahetya 1st year MBA presented her paper titled “Indian healthcare economic outlook – 2035” and participated in the debate titled “12-hour workday, 4 Days a week: Is it the key to work life balance?” Delegates were provided with certificate of participation for the same.

On 1st December 2022, on the occasion of world AIDS day, digital poster competition was conducted by JSS school of public health. Magesh Rangasamy, 1ST year MBA secured 1st place and won cash prizes and certificate for the same.

On the occasion of world blood donor day 2023, JSS hospital Mysuru conducted city wide blood donation campaign and blood donor day conference on 14th June 2023. The function was inaugurated by the Chief guest Dr. K V Rajendra, I.A.S, Deputy Commissioner and District Magistrate, Mysore. Dr.C.G.Betsurmamath, Executive Secretary, JSS Mahavidhyapeetha graced the occasion. As part of the program e-poster competitions, essay competitions were conducted on the theme “give blood, give plasma, share life, share often. Prathna N sahetya of MBA HA 1st year secured 2nd place in the E- poster competition and third prize in essay writing competition. Magesh rangasamy of MBA HA 1st year placed 3rd in e-poster competition. winners were awarded certificates and cash prizes.

The Internal Complaints Committee, JSS AHER had organized 'Discrimination against women' - Pakhwada Programme on "Prevention of Violence against Women - Beyond the barrier- Respect - Empower Women at Higher Education & Workplace" from 05.12.2022 – 17.12.2022 with two pre meetings with ICC members on 01.12.2022 and with organizing committee on 02.12.2022. Students of the department have contested for Short Film Making and Won 2nd best Short Film Award. Students also have volunteered for organizing various sessions; and department faculty coordinated and chaired various sessions.

Students Participation in International Yoga Day Celebrations

The students of Health System Management Studies attended National Yoga Day held on 21st June 2023 at Mysuru palace. The session started with meditation followed by Asana's (Physical postures), breathing techniques (Pranayama) and meditation (Dhyna)

Har Ghar Tiranga Celebrations

The Department of Health System Management Studies celebrated Independence Day on 13th August 2022 in context with nations Har Ghar Tiranga, and distributed flags to staff. The staff and students paid respect to the Nation by singing National Anthem and Vande Mataram.

Awareness programs

Department of Health System Management Studies, JSSAHER NSS unit in association with JSS Hospital Organized “World No Tobacco Day” on 31st May 2023 to spread awareness on Stop using Tobacco Products.

World Environment Day was celebrated on June 5th, 2023, with full enthusiasm and drive towards the conservation of Nature Jointly by the Department of Health System Management Studies and NSS Unit of the Department of Health System Management Studies and Nutrition and Dietetics. Dr CP Madhu Medical Superintendent of JSS Hospital was the Chief Guest. Guests of Honour were Dr. TS Harsha Assistant Professor, KSOU, Dr. HK Mamatha, Dean and Coordinator, Department of Health System Management Studies, and Dr. Vanitha Reddy, Coordinator of Nutrition and Dietetics were present.

World Environment Day

INFRASTRUCTURE SUPPORTING SDG 11

The college is providing public access to libraries that are located within the college premise. New papers, newsletters, journal articles are available for the public and students access. Tamil and English newspapers from various publishers are available.

Students accessing the library facility.

The Department of Pharmacognosy and Phytopharmacy, JSS College of Pharmacy will participate every year in the exhibitions conducted by the government at the botanical garden for preserving cultural heritage, traditions, language, and knowledge. Here, we educate and preserve the knowledge of the medicinal plants to the general public. This year medicinal plants exhibition which was conducted at Govt. Botanical Garden on the eve of 125th annual flower show. This year we won 9 Prizes (1 Rolling cup, 4 First, 2 Second, 1 Third and 1 Special Prize) in the 125th Flower show & 175th Anniversary of Ooty

among 200 competitors held during 19 - 24 May 2023 at Govt. Botanical Garden, Ooty. The Medicinal plants exhibition had attracted nearly 50,000 visitors. Awareness of medicinal herbs is created to public through supply of high quality essential oils and booklets. The exhibition has created awareness of the important role of diverse species of medicinal plants. Such, awareness allows people to shift their intention to sustainable usage and preservation of the floral in and around them.

Participation of the Department of Pharmacognosy, JSSCP Ooty, in the rose and flower show, with special emphasis on the preservation of cultural heritage.

The college has set targets on sustainable commuting practices. In this regard, the college is encouraging and supporting students to participate in cycling which is a sustainable commuting practice. In this regard Mr. Ahamed S, a 2nd year Diploma student had completed 200 km and 400 km BRM from Bengaluru to Trichy. BRM in cycling stands for Brevets de Randonneurs Modiaux which is a kind of cycling event. He bagged “6th Place” respectively during State Level BRM Cycling race held at Bengaluru, on 01st & 2nd July 2023. This Cycling race is for 400 KM. He completed it in 23 hours and 10 minutes. Totally 280 members participated in the said BRM Cycling race. This cycle race is India’s biggest and toughest race.

Mr. Ahamed S participating in cycling state level held in Bengaluru and Trichy with the support and motivation from the college

The college is providing free transportation for Pharm D (final year) for their internship program. Additionally, the college is also providing free transportation to students in emergency situations.

College bus and private vehicle of the college.

The college is providing affordable quarter facilities for teaching and non-teaching employees. The staff quarters has 24 X 7 electricity, water supply and other necessary amenities. An ATM from the Punjab National Bank was also located in the ground floor for all the staffs and public. The quarters are spacious and in-front a garden is provided. The college also provides The College has separate and affordable accommodations for boys and girls. The hostel has 24 X 7 electricity, water supply, doctor on call and other necessary amenities.

BIOMEDICAL WASTE MANAGEMENT

A process is developed by the hospital for safe handling and disposal of infectious and hazardous materials.

Purpose

- To minimize the health and equipment hazard in any related process
- To provide a safe and healthy environment for staff, patients and visitors

Scope

The procedure for collection, segregation, treatment, and disposal of biomedical waste generated during routine work in wards, OPDs, OTs, laboratories, and other places where biomedical waste is generated.

Responsibility

Safety Committee, Quality Assurance Team, Bio-Medical Waste Management Department, Laboratory, Clinical and Non-clinical staff. Document of BMW management approval from state Pollution control available with the management

Biomedical Waste Management

The SOP has been based on the policy direction issued in the Gazette of India notification of the 2018 Environment Protection Act guidelines. All wards and departments will follow the undermentioned instructions meticulously. Heads of departments and hierarchy of wards will be legally and morally responsible for the effective functioning of the health care waste management system at JSS Hospital. HIC members during rounds ensure appropriate disposal of BMW. If any deviation from the protocol is noticed, photographs are clicked and discussed with the concerned personnel to take necessary corrective measures.

Table: Colour Coding And Type Of Container For Disposal Of Bio-Medical Wastes-2018

Colour Coding	Type Of Container	Type of waste	Treatment options
Yellow	Plastic Bag	(a) Human Anatomical Waste: Human tissues, organs, body parts, and fetus below the viability period (as per the Medical Termination of Pregnancy Act 1971, amended from time to time (b) Animal Anatomical Waste : Experimental animal carcasses, body parts, organs, tissues, including the waste generated from animals used in experiments or testing in veterinary hospitals or colleges or animal Houses. (c) Soiled Waste: Items contaminated with blood, body fluids like dressings, plaster casts, cotton swabs (d) Expired or Discarded Medicines: Pharmaceutical	Incineration

		waste like antibiotics, cytotoxic drugs including all items contaminated with cytotoxic drugs along with glass ampoules, vials etc (e) Discarded linen, mattresses, beddings Contaminated with blood or body fluid.	
Red	Red colored nonchlorinated plastic bags or containers	Contaminated Waste (Recyclable) (a) Wastes generated from disposable items such as tubing, bottles, intravenous tubes and sets, catheters, urine bags, syringes (without needles and fixed needle syringes) and vacutainers with their needles cut) and gloves. Microbiology cultures in plastic containers, Vacutainers with blood samples.	Autoclave & Shredding Autoclaving or micro-waving followed by shredding or mutilation or a combination of sterilization and shredding. Treated waste to be sent to registered or authorized recyclers or for energy recovery or plastics to diesel or fuel oil or for road making, whichever is possible
White	Puncture proof, Leak proof, tamper proof containers	Waste sharps including Metals: Needles, syringes with fixed needles, needles from needle tip cutter or burner, scalpels, blades, or any other contaminated sharp object that may cause punctures and cuts. This includes both used, discarded and contaminated	Autoclaving or Dry Heat Sterilization followed by shredding or mutilation or encapsulation in a metal container or cement concrete; the combination of shredding cum autoclaving, and sent for final disposal to iron foundries (having consent to operate from the State Pollution Control Boards or Pollution Control Committees) or sanitary landfill or designated concrete waste sharp pit.
Blue	Cardboard box with blue marking /covers	Cardboard box with blue marking /covers	Disinfection (by soaking the washed glass waste after cleaning with detergent and Sodium Hypochlorite treatment) or through autoclaving or microwaving and then sent for recycling

Biomedical Waste Management at JSS hospital, Mysuru

Especially in hospitals, cleanliness can save lives. Every healthcare worker needs to understand this and also educate the visitors to the hospital with a lot of concern and patience. We the staff of JSS hospital take this pledge of keeping our hospital very clean, meaning to say that we would like to keep the hospital germ free as far as possible. This can be accomplished by following the international/national guidelines for Bio-Medical waste (BMW) management. This not only protects the patients, but health care workers and patient attendants too. We are committed in giving safe and quality service to our patients as described by the founder of our hospital Jagadguru Sri Shivarathri Rajendra Mahaswamiji as "PATIENTS ARE OUR RELATIVES" (Rogigale Namma Bandhugalu). To keep the hospital safe and germfree, we also need the cooperation of patients and attendants. We consider our hospital as a place of worship because we hear more prayers in the hospital for the good health of the patients than what we hear in temple/churches/mosques etc.

Table: Biomedical Waste Status from August 2022 to July 2023

Month	Yellow bags in kg/ month	Red in kg/ month	White in kg/ month	Blue in kg/ month
August 2022	4282	2909	321	899
September 2022	3990	2847	278	1171
October 2022	3754	2645	205	804
November 2022	4002	2458	274	1041
December 2022	3594	2749	236	824
January 2023	3436	2529	140	701
February 2023	3019	2360	161	799
March 2023	3426	2937	223	1219
April 2023	3695	2581	302	1162
May 2023	3772	2432	253	1220
June 2023	3609	2444	331	1114
July 2023	3853	2422	227	810

Segregation, containment, and packing of hospital waste in wards and departments

The waste should be segregated at the source, all health care personnel – doctors, nurses, interns medical and nursing and paramedical students, lab personnel, helper staff, patients, and attendants of patients are responsible for this. Clinical and nursing staff apart from meticulous exertion needs to oversee the proper operation.

Waste collection is done in each ward/department in color-coded labeled bins of the capacity of 20 to 35 liters of each category and placed at the points of generation in respective wards/departments at an accessible, user-friendly, and safe location.

Sharps will be collected in white puncture-proof containers in each department/ward. Sharps should be decontaminated with 1% sodium hypochlorite solution after disfiguring the same, the hypochlorite solution should be changed every 24 hours. Once 2/3rd full the container should be dispatched for disposal.

Intact glassware will be collected in cardboard boxes lined with blue boxes and can be handed over to the common treatment facilities. The waste collected by housekeeping staff is stored in color-coded rooms situated in the backyard of the hospital. The waste is transported to Shree consultancy in closed vans within stipulated time limits in a secure manner.

Biomedical waste treatment is outsourced to SHREE CONSULTANCY (which has a license from the state pollution control board) and the same is visited by representatives from Hospital Infection Control Committee, once in 6 months to ensure waste disposal according to Biomedical waste Management guidelines.

Staff Safety Considerations:

To ensure the safety of personnel involved in Bio-medical waste treatment and disposal, we follow certain policies and guidelines.

1. There are dedicated trolleys for transporting waste within the hospital.
2. All workers involved in this work are aware of the hazardous nature of this work.
3. The workers are provided with gumboots, rubber aprons, caps, masks, and thick rubber gloves.
4. All workers are immunized against Hepatitis B.

Training

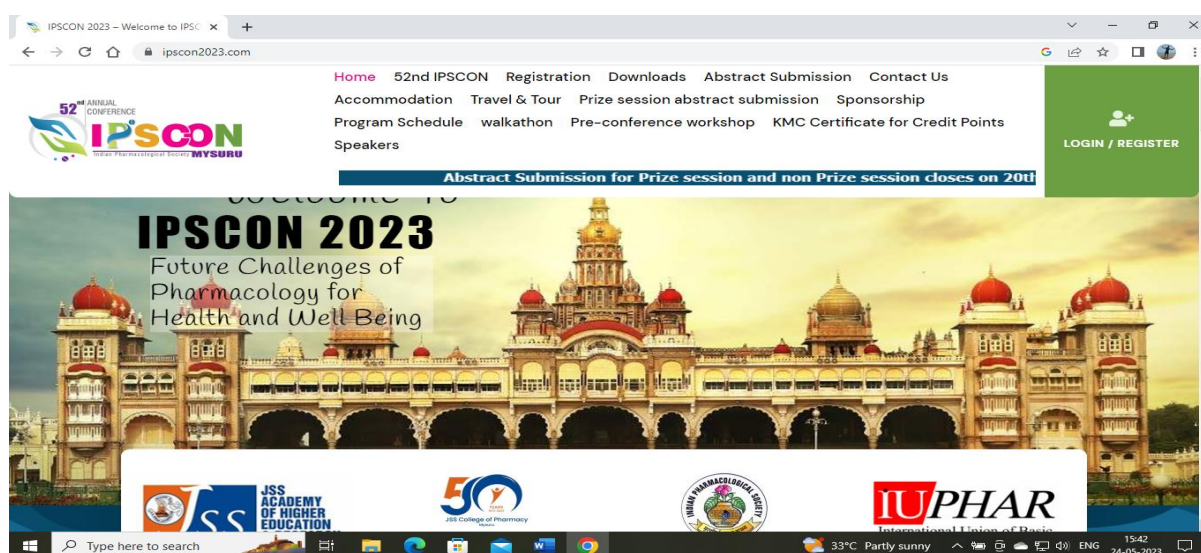

1. JSSH hospital has a well-designed awareness and training program for all categories of workers involved in Bio-medical waste disposal and management.
2. Regular pre-induction training shall be conducted for appropriate categories of staff before joining the concerned department.
3. We have charts displayed at strategic points in all patient care areas depicting our Biomedical waste management policy.
4. We have frequent workshops and training programs to promote awareness of our Biomedical waste management policy.

The management provides manpower, money, and materials to carry out Infection control programmes. Regular classes are conducted by ICNs and members of the HIC committee for all the staff of the Hospital. The induction programme for newcomers includes sessions on HIC Budget: The organization earmarks an annual budget for the Infection control programme. Based on the scope of HIC activities and the previous year's experience, this budget is allocated. Training: Organization provides induction training and In-service training sessions for all staff in regular sessions. For doctors, the Medical education unit conducts an induction programme with HIC as one of the topics. For nurses and other para-medical staff, training is conducted by ICNs and HIC members. All the policies and protocols defined and approved by the HIC committee are being taught repeatedly and any change in the protocol also is immediately informed to all the concerned staff. Pop-up messages on HIS are flashed to enforce the new changes into action.

QUESTIONS ADDRESSED REGARDING SDG 11

1. Does your college & university as a body provide public access to buildings, monuments or natural heritage landscapes of cultural significance?

College is situated in a heritage city Mysuru, Mysuru is well known for its ancient palaces and king rule. It possesses various monuments and heritage landscape. College takes the responsibility in projecting the rich heritage by depicting the pictorial representation in all its communicating materials such as brochures of the events, boardings, certificates etc. It also takes care about informing the visitors about the heritage of the city.

2. Does your college & university as a body provide public access to libraries including books and publications?

College has issued a circular for Saturday afternoon when public is accessed to the library. The interested person can always seek permission through proper channel and access the library materials.

3. Does your college& university as a body provide public access to museums, exhibition spaces / galleries and/or works of art and artifacts?

Every year as an annual event and being part of the JSS Mahavidyapeeta, college participates in suttur jathra Mohotsav. During this museum, exhibition stalls are organized for public viewing.

4. Does your college & university as a body provide free public access to open spaces and green spaces?

Campus at JSS College of Pharmacy is surrounded with lush green environment. This adds up to the safer environment reducing the pollution. Campus also has herbal vegetation that has medicinal value.

Campus at JSS College of Pharmacy is surrounded with lush green environment. This adds up to the safer environment reducing the pollution. Campus also has herbal vegetation that has medicinal value.

College also provides space for the training of long tennis, candidates from different places come and train their self along with coach.

5. Does your college & university as a body contribute to local arts, in terms of number of annual public performances of university choirs / theatre groups / orchestras etc?

Every year college celebrates cultural events called as “Pharma Fest”. Which is a grand event at college, along with other performances, events related to folk dance, traditional songs, Instrumental music competitions are held. These events uphold the different culture and traditional and languages

6. Does your college & university as a body deliver projects to record and/or preserve intangible cultural heritage such as local folklore, traditions, language, and knowledge?

Traditional dance

7. Does your college & university as a body measure and set targets for more sustainable commuting (walking, cycling or other non-motorized transport, vanpools, carpools, shuttlebus or public transportation, motorcycle, scooter or moped, or electric vehicles)?

College and university promotes e-vehicles. Cycles are provided for commuting inside the campus.

8. Does your college & university as a body promote or allow telecommuting or remote working for employees as a matter of policy or standard practice, and/or offer a condensed working week to reduce employee commuting?

College in lieu with JSS AHER is always ready to adopt and promote ideas that has sustainability. During the pandemic, university took initiates steps for promoting continuous learning. Online teaching was implemented is being continued and also followed for conducting webinars and conferences.

9. Does your college & university as a body measure and set targets for more sustainable commuting (walking, cycling or other non-motorized transport, vanpools, carpools, shuttlebus or public transportation, motorcycle, scooter or moped, or electric vehicles)?

College and university provides and promotes cycling

10. Does your college & university as a body undertake actions to promote the % of more sustainable commuting (e.g. provision of free or subsidised buses or shared transport schemes, provision of bicycle parking & storage facilities, provision of cycle tracks, a bicycle and pedestrian plan or policy, bicycle sharing programme, free or reduced price transit passes, car/van pool or ride sharing programme, reduced parking fees or preferential parking for carpool or vanpool users, car sharing programme, provision of electric vehicle recharging stations, preferred parking for fuel-efficient vehicles)?

College provides bus facility for commuting students to hospital. College has planned for installation of charging points for E-Vehicle.

College supports the student in providing necessary documents required for subsidized bus passes of public transport.

11. Does your college & university as a body build new buildings to sustainable standards (if 'yes', are you following a national standard or body, e.g. the world green building council, that certifies it? Please indicate)?

College has taken initiative and installed solar panels that covers 60% of energy required for heating and lighting. Hostels are also installed with solar panels which is used for water heating.

College has taken the initiative for green audit.

12. Does your college & university as a body provide affordable housing for employees?

University has provided housing facility, Staff and research scholars can avail this facility. The rents of the housing is subsidized for the benefit of staff and research students.

13. Does your college & university as a body provide affordable housing for students?

<https://www.jssuni.edu.in/jssaer/college-of-pharmacy-mysuru/cpm-facilities.html>

14. Does your college & university as a body prioritise pedestrian access on campus?

Well built pedestrian pathway is provided. College has lush green area, with pathway. Green environment helps to keep the surrounding neat and calming.

15. Does your college & university as a body work with local authorities to address planning issues/development, including ensuring that local residents are able to access affordable housing?

JSS institutions combinedly have a registered Housing board society. This society works for the staffs of all JSS institutions for providing better and affordable housing. It coordinates with local authorities such as Mysore Urban Development Association.

16. Does your college & university as a body build new buildings to sustainable standards (if 'yes', are you following a national standard or body, e.g. the world green building council, that certifies it? Please indicate)?

College is working at creating eco-friendly environment. It has installed solar panels for energy supply. LED bulbs are used for lighting. College has taken future steps in also installing Energy efficient fans. The infrastructure of the college is built in a way that natural sunlight and ventilation can be well utilized.

OUTREACH ACTIVITIES SUPPORTING SDG 11

Various social activities carried out by JSS Dental College and Hospital in the last one year.

Free Primary Dental Care Services through camps, outreach programmes and Mobile Dental Services in cities

- Urban peripheral centers (Dental unit-JSS Hospital Suttur, Central prison, KSRTC, Urban health centre)
- Oral health exhibitions
 - Oral health education and Free Primary Dental Care Services for residential school children
 - Oral health education and Free Primary Dental Care Services for children with special needs.
 - Baby oral health clinic – JSS Hospital, Agrahara
- Pit and fissure sealant program for residential school children
- Free/Subsidized Specialist Services at JSS Hospital for referrals
- Cleft lip and palate – JSS Smile, JSS Dental College and Hospital
- Public awareness campaigns such as World Health Day, World No Tobacco Day, World Environment day, World AIDS day, National tooth brushing day, oral hygiene day
