Action Taken Report on Feedback Analysis

For the academic year 2020-21

Sl No	Stakeholder	Feedback	Action taken
1	Students	Online classes are more theoretical. Practical and clinical classes should be conducted more frequently.	As the COVID-19 pandemic and the lockdown has affected the clinical and practical sessions in the institution. The online classes were the only means for academic engagement of the students. Once the pandemic subsides, all the practical and clinical training will be conducted as they used to occur in pre pandemic period.
2	Students	Provide the internet connection with the strong bandwidth in the campus in order to facilitate the attending of online classes	All the necessary arrangements are made in consultation with the Chief Information Officer of JSSAHER to improve the internet connectivity in the campus for hassle free online classes
3	Students	Provide reading materials online for reference	JSSU Online platform is being used effectively to provide the digital learning resources to the students.
4	Students	Provide sick room, quarantine facilities to the students in the hostel	These facilities are already in place. Additional quarantine and isolation room facilities are made available at JSS Hospital for the benefit of the students.
6	Teachers	Implementation of newer CBME curriculum in pandemic situation is challenging task	Considering the constraints offered by the ongoing pandemic, NMC has given several recommendations on implementation of curriculum in a flexible manner. Hence the same is implemented with larger emphasis for online classes and case-based learning sessions
7	Teachers	Holding the attention of students in online classes is extremely difficult.	Considering the necessity of online classes to be the only mode of reaching out to the students, teachers are provided with special trainings on engaging students in virtual learning sessions through the experts in the fields of distance learning.

8	Teachers	Need for hand holding in using digital platforms for teaching	One to one training sessions are conducted by the coordinators of online teaching with the faculty to handhold them in using zoom and other digital platforms.

Action Taken Report on Feedback Analysis For the academic year 2020-21

SI No	Stakeholder	Feedback	Action taken
1.	Students	Class should be understanding and for internals chapters which have been thought those chapters should be given and for internals few amount chapters should be given not the whole textbook	Informed all the department to strictly follow the schedule and include only chapters which been taught
	Alumni	Improve clinical materials in the hospital	There has been some impact on hospital clinical load from the COVID-19 pandemic's disruption of the healthcare system. Efforts are being undertaken to improve the hospital's clinical load to pre-pandemic levels.
	Students/ parents	Till now, everything in JSS dental college curriculum is well organized as I completed my first and second BDS	Noted
	Teachers	Current syllabus is well balanced with respect to the integration of theoretical concepts into practical learning.	Noted
