

JSS Academy of Higher Education & Research Media Centre

JSS AHER Media Centre is a complete media capture system to capture, record and live stream the entire classroom/indoor activities in a simple and efficient way for the faculty of the University. The lectures, demonstrations and clinical case discussions can be conveniently recorded and provided for students as additional resource.

This also helps the teacher to develop e content for module preparation for distance learning or JSS Academy of Higher Education & Research Online /E-learn portal.

JSS AHER media Centre is equipped with a full high-definition camera, recording facility, and editing requirements. This centre completely fits perfectly not only into college and hospital teaching activity or trainings, and also tailors to the needs of conference recordings of institutions of the JSS AHER.
