

The JSS AHER Campus Nature Club is a student-led initiative committed to promoting environmental awareness, nature conservation, one health conceptualisation and sustainable thinking within the campus community. Since 2015 periodic tree walks, bird watch and butterflies watch program were conducted. The club aims to cultivate curiosity about the natural world while encouraging responsible actions that contribute to ecological balance and environmental stewardship.

The club functions on the core values of conservation, education, creativity, and community engagement. It provides students with opportunities to learn beyond textbooks through interactions with experts, collaborative projects, and nature-focused initiatives. The JSS AHER Campus Nature Club operates under the guidance of an experienced and supportive faculty team, ensuring both academic depth and continuity in its activities.

The club is mentored by dedicated faculty guides Dr. M Kishor, Dr. Arun, Dr. Vijaya, and Dr. Pushpa, whose guidance and encouragement play a crucial role in shaping the vision and execution of the club's initiatives. The student core committee

Nature Club

leads the planning and implementation of activities with enthusiasm and accountability. The core members include Mouli (President),

Sharenia (Vice President), Arnab (Secretary), and Sahoran (Public Relations Head), who collectively coordinate the club's academic, creative, and

outreach efforts.

Since its establishment, the club has undertaken meaningful and intellectually enriching activities. A notable highlight was a book talk by Dr. Natesh on "Iconic Trees of India," which provided students with valuable insights into India's ecological heritage and the cultural significance of native tree species. Building on this inspiration, the club has initiated planning for a coffee table book aimed at documenting and celebrating nature through art, photography, and research. Additionally, plans are underway for another expert resource person talk to further expand student exposure to environmental themes.

Through these initiatives, the JSS AHER Campus Nature Club continues to foster environmental sensitivity, leadership, and creative expression, working steadily towards building a greener and more informed campus community. It has more than 160 active members who interact and stay active in discussing, sharing best of campus nature in picture and text!! The Club has wonderful logo, with a tagline "Rooted in Nature, Growing Together" and exclusive Instagram "@_WHISPERING_GREENS_JSS"
